SUMMARY

Compassionate and dedicated Acute Dialysis Registered Nurse with over 5 years of experience committed to delivering exceptional patient care in high-pressure environments. Proven ability to assess patient conditions accurately and implement effective treatment plans, emphasizing patient education and emotional support. Strong background in collaboration with interdisciplinary teams ensures optimal health outcomes for patients. Actively engaging in continuous learning and adaptation to advancements in dialysis treatments enhances clinical skills, ultimately benefiting patients' well-being and recovery. Eager to contribute expertise towards improving patient experiences and health metrics.

EXPERIENCE

Acute Dialysis Registered Nurse

HealthFirst Medical Center 📅 June 2021 - Present 📍 Chicago, IL

Specialized in providing comprehensive care for acute dialysis patients, leveraging clinical assessments to enhance treatment strategies and optimize patient outcomes. Engaged with a collaborative team of nephrologists and nursing colleagues to formulate individualized care plans tailored to each patient's unique health needs. Fostered effective communication through precise and timely documentation, ensuring continuity in patient care, while maintaining compliance with infection control protocols. Focused on patient education, empowering them to understand their condition, treatment process, and effective self-care methods.

- Monitored and assessed health status of dialysis patients, adjusting treatments based on clinical judgments.
- Collaborated with interdisciplinary team members to develop and execute personalized patient care plans.
- Educated patients and families on kidney disease management, promoting self-care and informed decision-making.
- Administered medications as prescribed, monitoring patients closely for potential side effects throughout treatment.
- Maintained meticulous records of interventions, observations, and responses to treatment to facilitate quality care.
- Upheld strict infection control standards, fostering an environment that efficiently minimizes the risk of hospital-acquired infections.

Dialysis Nurse

Riverbend Health Network 📅 January 2019 - May 2021 📍 Chicago, IL

Focused on managing comprehensive dialysis care processes while building rapport with patients to ease their anxieties. Supervised technical procedures during treatment sessions, ensuring adherence to established protocols. Participated in ongoing educational workshops enhancing technical acumen regarding dialysis technologies and methodologies, significantly impacting patient safety and comfort throughout treatments.

- Initiated, managed, and evaluated dialysis treatments according to strict regulatory guidelines.
- Conducted thorough patient assessments, enabling input for case discussions among healthcare teams.
- Provided empathetic support to patients and families, addressing concerns while fostering trust.
- Led training sessions for new staff, instilling best practices in patient interaction and maintenance.
- Collaborated on initiatives aimed at continuously improving patient care practices.
- Engaged in refresher courses to explore advancements in dialysis technology, furthering professional development.

MY CAREER

● Acute Dialysis Registered Nurse at HealthFirst Medical Center (5.1 Years)

● Dialysis Nurse at Riverbend Health Network (2.3 Years)

● Registered Nurse at North Shore Community Hospital (2.8 Years)

Registered Nurse

North Shore Community Hospital 📅 March 2016 - December 2018 📍 Evanston, IL

Delivered wide-ranging nursing care across multiple departments, enabling a deep understanding of diverse patient needs. Worked with multidisciplinary teams focused on optimizing health outcomes through strategic care planning. Committed to continuous improvement by engaging in professional development opportunities, ultimately enriching patient interactions and knowledge base within care protocols.

- Provided compassionate nursing care, assessing and meeting varying patient needs across departments.
- Assisted with the development of nursing protocols focused on enhancing quality of care.
- Actively participated in continuing education seminars related to renal care advancements.
- Supported coordination between disciplines, ensuring thorough approaches to patient health planning.
- Documented all aspects of patient care, creating lines of communication that facilitated teamwork.
- Contributed meaningfully to a culture prioritizing empathy and motivation in patient-centric delivery.
