

STRENGTHS

-  **Territory Ownership**
A six-state territory became easier to manage after pairing distributor coverage with planned end-user visits and clear follow-up.
-  **Technical Selling**
Plant teams often needed product clarity first; translating dimensions and materials helped partners move conversations forward.
-  **Partner Development**
Distributor teams became stronger customer advocates after practical training with samples, application examples, and open discussion.
-  **Pipeline Discipline**
Regular CRM reviews kept qualification, technical discovery, next steps, and forecasts visible for sales leadership.
-  **Field Collaboration**
Joint calls connected plant stakeholders and distributor representatives, creating shared plans that carried from inquiry through quotation.

Trade Shows Technical Discovery

SUMMARY

Outside industrial sales professional with more than four years growing metal product revenue across multi-state territories and distributor networks. Mechanical aptitude supports practical conversations about industrial settings, product specifications, equipment fit, replacement needs, and operating challenges. Current work includes territory ownership, end-user prospecting, **CRM pipeline reviews**, **national sales strategy** execution, distributor training, **joint sales calls**, and trade show follow-up. Strong relationships with plant maintenance teams, engineers, purchasing contacts, distributor partners, and technical stakeholders have supported qualified opportunities and clearer buying decisions. A Bachelor of Science in Industrial Distribution and OSHA 10-Hour General Industry training add commercial and workplace credibility. Ready to bring disciplined field coverage, useful product guidance, and collaborative account development across a **defined geographic territory**.

EXPERIENCE

Regional Sales Manager

Midwest Alloy Systems  May 2024 - Present  Cleveland, OH

- Owns a six-state territory for metal components and industrial assemblies, guiding distributor coverage, end-user development, technical discovery, CRM forecasting, field travel, and trade show activity.
- Expanded six-state metal components territory through distributor coverage and end-user account planning.
 - Translated plant engineering requirements into **product specifications** for equipment and material-handling applications.
 - Advanced **CRM pipeline reviews** through qualification, technical discovery, distributor alignment, and forecast validation.
 - Led distributor product demonstrations using application examples, samples, and replacement scenarios.
 - Coordinated **joint sales calls** with plant stakeholders, distributors, and purchasing contacts.
 - Represented industrial product lines at trade shows and routed qualified leads through partner networks.

Outside Sales Representative

Lakefront Mechanical Supply  June 2022 - April 2024  Toledo, OH

- Managed **outside sales** across northern Ohio and Indiana, developing manufacturer and machine shop accounts through independent distributors while coordinating product discovery, quotations, training, and field follow-up.
- Managed northern Ohio and Indiana sales for metal fittings and fabricated industrial components.
 - Mapped equipment, purchasing contacts, product gaps, and distributor relationships within manufacturer account plans.
 - Used CRM opportunity stages and field notes to prioritize travel and pipeline reviews.
 - Secured dimensions, materials, applications, and delivery needs before technical quotation coordination.
 - Delivered distributor toolbox sessions with samples and application examples for customer conversations.
 - Converted trade show inquiries into site visits, sample requests, and distributor quotations.

Industrial Sales Coordinator

PrecisionWorks Distribution  January 2022 - May 2022  Findlay, OH

- Supported senior outside representatives serving metalworking and general industrial accounts through prospect research, CRM maintenance, product comparisons, customer visits, supplier coordination, and event follow-up.
- Organized account research, quote requests, samples, and customer visits for outside representatives.

MY CAREER

● Regional Sales Manager at Midwest Alloy Systems (2.3 Years)

● Outside Sales Representative at Lakefront Mechanical Supply (1.8 Years)

● Industrial Sales Coordinator at PrecisionWorks Distribution (4 Months)

- Researched end users by industry, equipment type, production process, and metal product needs.
- Maintained CRM records covering distributors, conversations, specifications, and follow-up commitments.
- Prepared comparison materials explaining fit, material selection, and replacement considerations.
- Joined supervised field calls to document mechanical applications and customer operating challenges.
- Coordinated industrial event materials, lead capture, and post-show opportunity routing.

PROJECTS

Multi-State Distributor Growth Plan 📅 2025

Built a field coverage plan linking distributor relationships, end-user targets, product specifications, travel priorities, and CRM follow-up across six states.

Industrial Product Training Series 📅 2024

Created practical distributor sessions using metal product samples and application examples, helping partner teams discuss fit, materials, and replacement needs.

LEADERSHIP & AWARDS

- Regional Sales Leadership Recognition for consistent territory development and distributor collaboration, 2025.
- Customer Partnership Award for product training, field support, and responsive industrial account service, 2023.
- Led distributor and plant stakeholder sessions that strengthened shared account plans and improved follow-through across territory opportunities.
