SUMMARY

Driven AI Engineer with over 5 years of experience developing and implementing LLM/GenAI solutions. Passionate about leveraging data modeling and advanced problem-solving to create scalable, secure applications. Skilled in collaborating with diverse teams, delivering projects on time while aligning with governance standards. Proven ability to enhance operational readiness through hands-on support in quality assurance and performance optimization. Eager to join Innovative Tech Solutions to contribute to cutting-edge AI applications that push technological boundaries.

EXPERIENCE

AI Engineer

January 2022 - Present

Tech Innovations Inc.

Dallas, TX

Serve as an AI Engineer focused on designing and deploying scalable AI solutions within production pipelines. Collaborate closely with both technical and non-technical teams to ensure successful integration of advanced AI models in line with business objectives.

- Design and implement robust AI solutions integrating LLM technologies for various applications.
- Build production pipelines ensuring operational efficiency and compliance with security protocols.
- Conduct ongoing performance tuning and optimization of deployed AI applications.
- Facilitate knowledge sharing by mentoring junior team members on best practices.

AI Consultant

June 2020 - December 2021

Smart Data Solutions

Houston, TX

Engaged as an AI Consultant responsible for devising integration strategies across multiple platforms. Key focus on the training and support of stakeholders to elevate understanding of AI tools and compliance frameworks.

- Supported clients in designing workflows for efficient AI model integration.
- Created detailed data retrieval processes utilizing state-of-the-art AI algorithms.
- Delivered workshops empowering stakeholders with insights into AI capabilities and governance roles.
- Actively participated in project meetings conveying technical insights to assist in strategic decisions.

Junior AI Developer

July 2019 - May 2020

Data Science Corp.

Austin, TX

Functioned as a Junior AI Developer contributing to the development and deployment of machine learning models. Responsibilities included assisting in data processing tasks and applying feature engineering techniques for enhanced model performance.

- Collaborated within a team to construct and refine machine learning models catering to client needs.
- Assisted in creating and maintaining data processing pipelines enhancing data accessibility.
- Performed testing and monitoring on AI applications, upholding quality benchmarks in deliverables.
- Documented processes and findings to support iterative improvements in project delivery.

PROJECTS

AI-driven Chatbot Solution 📅 January 2023

Developed an innovative chatbot using LLM technology aimed at improving customer service response times. Focused on natural language processing to enhance user interaction experiences.

Real-time Analytics Dashboard 📅 June 2023

Created a real-time analytics dashboard integrating various AI models to provide timely insights for decision-makers. Utilized data visualization tools for impactful presentations.

LEADERSHIP & AWARDS

- Recipient of Smart Data Solutions' Achievement Award for excellence in project execution, promoting ethical standards in AI development.
- Honored with Tech Innovations Inc.'s Employee of the Month for exceptional teamwork and collaboration achievements in enhancing product outputs.

EDUCATION

Bachelor's Degree in Computer Science

2019

University of Texas at Austin GPA: 3.8

Austin, TX

Coursework: Data Structures, Machine Learning, Algorithms, Cloud Computing

CERTIFICATIONS

- AWS Certified Solutions Architect 📅 2022
- Certified Data Scientist 📅 2021

TECHNICAL SKILLS

- **Cloud Platforms:** AWS, Azure, GCP
- **Programming Languages:** Python, Java, R
- **Data Handling Tools:** Pandas, NumPy, SQL
- **Development Frameworks:** TensorFlow, PyTorch, Scikit-learn
- **Visualization Tools:** Tableau, Matplotlib, Seaborn
- **Version Control Systems:** Git, GitHub, Bitbucket
- **CI/CD Tools:** Jenkins, Travis CI, CircleCI
- **Testing Frameworks:** Postman, JUnit, pytest
- **Project Management Tools:** Trello, Asana, Jira
- **Collaboration Tools:** Slack, Microsoft Teams, Zoom

SKILLS

- AI/ML Development
- Data Engineering
- Cloud Computing (AWS)
- API Development
- Real-time Inference
- Machine Learning
- Data Modeling
- Governance Standards
- Cross-functional Collaboration
- Ethical AI Practices
- Data Analytics
- Automation Tools
- Performance Tuning
- Software Development
- Quality Assurance

PROFESSIONAL AFFILIATIONS

- Active member of Women in Technology, participating in initiatives supporting diversity in tech fields.
- Volunteer with AI for Good, offering pro bono consulting for non-profits looking to improve operations through AI solutions.

LANGUAGES

- English (Native)
- Spanish (Proficient)

ADDITIONAL INFORMATION

Work Status : Authorized to work in United States. No sponsorship required.
