

# Julian Frazier

## AI Engineer Intern

📞 (561) 555-0123 ✉️ julian.frazier@example.com

🌐 linkedin.com/in/julianfrazier 📍 West Palm Beach, FL 33401

### SUMMARY

Computer Science student with a strong foundation in AI solutions and automation tools. Skilled in Python programming, API integration, and low-code platforms. Collaborative approach to projects ensures clarity in communication and connection with both technical and non-technical audiences. Committed to continuous learning and growth within innovative environments. Eager to contribute analytical abilities and foster innovative ideas as part of a dedicated team at TechVision Group.

### EDUCATION

#### Bachelor's Degree in Computer Science

Florida Atlantic University 🎓 GPA: 3.8 📅 2026 📍 Boca Raton, FL

**Coursework:** Data Structures, Machine Learning, Database Management, Software Development

### TECHNICAL SKILLS

- **Low-Code Platforms:** n8n, Make, Zapier
- **Programming Languages:** Python
- **Machine Learning Tools:** scikit-learn, TensorFlow, Pandas
- **APIs:** REST, GraphQL, SOAP
- **Data Visualization Tools:** Tableau, Matplotlib, Seaborn
- **Project Management Tools:** Trello, Jira, Asana
- **Cloud Platforms:** AWS, Azure, Google Cloud
- **Documentation Tools:** Google Docs, Markdown, Notion
- **Version Control:** Git, GitHub, GitLab
- **CI/CD Tools:** Jenkins, CircleCI, Travis CI

### EXPERIENCE

#### AI Automation Developer

University Project 📅 January 2025 - Present 📍 West Palm Beach, FL

This experience focuses on practical applications of AI through low-code automations and real-world project contributions. Collaboration with peers drives innovation, ensuring projects meet technical specifications while enhancing user experience. Delivered consistent results and fosters open communication across teams.

- Built a low-code workflow using n8n for academic systems, improving processing efficiency dramatically.
- Integrated various AI APIs into project workflows for better analysis capabilities.
- Documented all processes for future use and knowledge sharing among team members.
- Collaborated with team to optimize and troubleshoot automation flows, resulting in improved reliability.
- Conducted research on emerging AI frameworks that informed technology choices for projects.
- Presented findings and implementations to faculty, showcasing clear communication skills.

#### Machine Learning Intern

Hackathon Project 📅 September 2024 - December 2024 📍 West Palm Beach, FL

Engaged in team-based problem-solving during the hackathon, exploring AI applications in education. This role highlighted time management and adaptability while delivering a prototype solution under tight deadlines.

- Developed an AI tool predicting student performance based on historical data, leveraging machine learning techniques.
- Utilized Python programming and libraries for prediction model construction and outcome visualization.

### STRENGTHS

- 💡 **Curiosity**  
Always eager to learn about new technologies, often researching methods for project enhancement.
- 👥 **Collaboration**  
Thrives in team settings where insights are shared openly, bolstering group creativity and output.
- 🗣️ **Communication**  
Articulates complex concepts clearly, enabling seamless discussions with both technical and lay audiences.
- ⚙️ **Innovation**  
A proactive mindset for finding fresh approaches in projects helps elevate quality and client satisfaction.
- 🔄 **Adaptability**  
Navigates shifting priorities and feedback quickly, cementing success in dynamic project environments.

### SKILLS

Python n8n Zapier

API Integration Data Analysis

Machine Learning

Documentation Skills

Effective Communication

Collaboration Research Ability

Presentation Skills

Problem Solving

Time Management

Agile Methodologies

Technical Writing

Workflow Efficiency

## LANGUAGES

English Native

Spanish Proficient

## MY CAREER

● AI Automation Developer at University Project (1.5 Years)

● Machine Learning Intern at Hackathon Project (3 Months)

- Designed a user-oriented interface aiding non-technical users in navigating the application effortlessly.
- Assisted during presentation to judges, effectively articulating project features and its broader impacts.
- Gained insight into rapid prototyping and agile development methodologies throughout the event.
- Achieved recognition for innovative AI implementation geared towards educational enhancement.

## LEADERSHIP & AWARDS

- Dean's List, Florida Atlantic University - Fall 2024
- Received special acknowledgment from hackathon judges for innovative project design.

## CERTIFICATIONS

- Google Data Analytics Certificate 📅 2025
- Python Programming Basics 📅 2025

## PROFESSIONAL AFFILIATIONS

- Member, AI Club, Florida Atlantic University - 2025
- Participated actively in university-led tech events focusing on AI advancements.
