

Lincoln Chang

AI Hyper Automation Developer

JUNE 18, 2026

Hiring Manager
Dynamic Solutions Inc.
Atlanta, GA

Dear Hiring Manager,

I am excited to apply for the AI Hyper Automation Developer position at Dynamic Solutions Inc. This role perfectly aligns with my skills and experiences in designing automation solutions. I focus on solving complex problems and enhance workflows.

Dynamic Solutions Inc. seeks someone with hands-on experience in AI tools. I have over four years in this domain, primarily using the Microsoft Power Platform. I know how to optimize processes to create effective, intuitive solutions for diverse teams.

At Tech Innovators LLC, I led automation projects that improved efficiency significantly. Once, my team reduced operation time by 25%. This achievement displayed my ability to transform ideas into real results.

My education and certifications further equip me to excel in this role. Communication remains a priority; I believe it's key to translating technical requirements into practical solutions.

I admire Dynamic Solutions Inc.'s commitment to a family-first culture. It resonates deeply with me. A supportive environment fosters creativity and innovation, both of which drive me.

Thank you for your consideration

Sincerely,

Lincoln Chang
