

Lincoln Chang

AI Hyper Automation Developer

(206) 555-1234 | lincoln.chang@example.com | linkedin.com/in/lincolnchang | 123 Maple Street, Seattle, WA 98101

STRENGTHS

- Adaptability**
Easily adjusts to changes in project demands or technologies, gaining respect from both peers and management.
- Problem-Solving**
Excels in identifying challenges and creating efficient, sustainable solutions that lead to smoother workflows.
- Collaboration**
Works effectively with diverse teams, fostering open communication to achieve project alignment and success.
- Creativity**
Brings innovative ideas to automate tasks, praised for perceived foresight and initiative in improving processes.
- Technical Proficiency**
Possesses deep skills in AI platforms and automation frameworks, often sought after for advice by colleagues.

SKILLS

- AI Tools
- Microsoft Power Platform
- Prompt Engineering
- RESTful APIs
- Cloud Platforms
- Automation Solutions
- Workflow Strategy
- Data Processing
- Integration Techniques
- Stakeholder Engagement
- Feedback Implementation
- Web Services
- Low-Code Development
- Document Analysis

SUMMARY

Results-driven AI Hyper Automation Developer with over four years of experience in creating and implementing intelligent automation solutions. Skilled at leveraging AI tools and Microsoft Power Platform for process enhancement. Collaboration with cross-functional teams translates complex needs into effective automation strategies. Proven history of building automation systems that streamline workflows and significantly improve operational efficiency.

EXPERIENCE

Senior AI Automation Developer

Tech Innovators LLC | January 2025 - Present | Portland, OR

Spearhead development of automation solutions within the Microsoft Power Platform, driving operational advancements across multiple departments.

- Lead a team in developing automated workflows using Microsoft Power Automate.
- Collaborate with integration teams to build secure RESTful web services for automation.
- Optimize prompts for generative AI tools to enhance output quality.
- Engage stakeholders in feedback sessions to refine automation features.

Automation Engineer

NextGen Automation Corp. | March 2023 - December 2024 | San Francisco, CA

Contributed as an Automation Engineer by creating low-code solutions that streamlined client operations and improved user engagement.

- Developed efficient low-code automation processes that reduced overall project timelines.
- Coordinated with end-users to gather insights, enhancing interface usability and performance.
- Implemented AI document processing systems to boost data accuracy.
- Coordination efforts resulted in high levels of user satisfaction and retention.

Junior Software Engineer

Smart Solutions Group | June 2022 - February 2023 | Los Angeles, CA

Supported the software engineering team by focusing on tool development and integration efforts, contributing to main project objectives.

- Assisted in crafting automation tools closely integrated with cloud services.
- Participated in designing key web services as part of broader project goals.
- Maintained documentation for projects, ensuring adherence to best practices.
- Provided fresh ideas during brainstorming sessions, enriching ongoing projects.

LEADERSHIP & AWARDS

- Received Employee of the Month for exceptional project leadership at Tech Innovators LLC.
- Awarded Best Innovative Solution for deployment of AI-driven automation systems at NextGen Automation Corp.

EDUCATION

Bachelor's Degree in Computer Science

University of Washington | GPA: 3.8 | 2022 | Seattle, WA

Coursework: Software Development, Database Management, Cloud Computing, AI Technologies

CERTIFICATIONS

- Microsoft Certified: Power Platform Developer Associate | 2023
- AI and Machine Learning Fundamentals | 2024

User Experience Design

Project Management

MY CAREER

● Senior AI Automation Developer at Tech Innovators LLC (1.4 Years)

● Automation Engineer at NextGen Automation Corp. (1.8 Years)

● Junior Software Engineer at Smart Solutions Group (8 Months)

TECHNICAL SKILLS

- **Automation Tools:** Microsoft Power Automate, UiPath, Zapier
- **Programming Languages:** Python, JavaScript, C#
- **Project Management Tools:** Trello, Asana, JIRA
- **Database Management Systems:** SQL Server, MySQL, Oracle
- **AI Development Frameworks:** TensorFlow, Pytorch, Azure ML
- **API Technologies:** REST, SOAP, GraphQL
- **Cloud Providers:** AWS, Azure, Google Cloud
- **Collaboration Tools:** Slack, Microsoft Teams, Zoom
- **Version Control Systems:** Git, GitHub, Bitbucket
- **Documentation Tools:** Confluence, SharePoint, Notion

PROFESSIONAL AFFILIATIONS

- Active member of the Seattle Software Developers Group, facilitating knowledge sharing and networking among developers.
- Volunteer at Code.org teaching youth about programming and automation technologies.
