

Londyn Callahan

AI Platform & Integrations Software Engineer

(312) 555-7890 | londyn.callahan@example.com | linkedin.com/in/londyncallahan | 1234 Maple Avenue, Chicago, IL 60614

STRENGTHS

- Collaboration**
Facilitated collaboration between diverse teams leading to successful outcomes. Enjoy serving as a go-to resource for complex inquiries, fostering teamwork.
- Technical Proficiency**
Applied deep technical skills gained from advanced coursework to real-world challenges effectively. Quickly gained confidence from peers for insightful troubleshooting.
- Problem Solving**
Demonstrated talent for problem-solving by increasing efficiency in past projects. Gained recognition from leadership for innovative approaches.
- Agile Adaptability**
Adapted readily to changes and embraced Agile principles in fast-paced environments. People acknowledged flexibility during project pivots.
- Quality Assurance**
Prioritized high standards for quality, uncovering bugs before they affected users. Embedded QA practices into everyday work routines where applicable.

SKILLS

Python JavaScript React Node.js
AWS SQL Docker APIs CI/CD
DevOps Agile RESTful Services
GraphQL NoSQL
Frontend Development
Backend Development

SUMMARY

Dedicated software engineer with over five years of experience delivering AI-native platforms and integrations. Proven ability to craft high-quality software solutions that remarkably enhance user experiences through innovative technologies. Collaboration with cross-functional teams drives the achievement of project goals while keeping a steadfast focus on performance and reliability. Skilled in supporting end-to-end product functionality across multi-tenant systems, including scalable data models, APIs, and user-facing workflows. Committed to maintaining engineering standards and quality execution for SaaS infrastructure. Eager to contribute expertise to impactful projects at Innovative Tech Solutions.

EXPERIENCE

Software Engineer

Tech Innovations Inc. 📅 June 2022 - Present 📍 Los Angeles, CA

Lead development and maintenance of scalable data models and APIs for a dynamic, multi-tenant SaaS platform. Effectively collaborate with product teams to design user-facing workflows aimed at optimizing application performance. Execute integration layer implementations using OAuth2 and webhooks, ensuring seamless interactions with third-party APIs. Conduct thorough analyses to optimize system performance associated with real-time analytics dashboards.

- Developed and managed scalable data models essential for improved SaaS functionality.
- Collaborated closely with cross-functional teams on enhancing user-facing workflows.
- Implemented robust integration layers for secure API interactions.
- Analyzed existing systems to ensure optimal performance of analytics features.

Junior Software Engineer

NextGen Solutions 📅 January 2020 - May 2022 📍 Austin, TX

Assisted in building backend services crucial for a cloud-based software solution. Contributed meaningfully to code reviews and fostered adoption of best practices within engineering teams. Supported feature launch initiatives by working shoulder to shoulder with UX/UI designers and product managers to deliver compelling user experiences.

- Contributed to backend development for an expansive cloud software application.
- Engaged in collaborative efforts during code review processes to enhance code quality.
- Coordinated with product management and design teams leading up to successful feature launches.
- Facilitated continuous improvements in software delivery methodologies.

Intern

Bright Future Technologies 📅 June 2019 - December 2019 📍 Boston, MA

Gained hands-on software engineering experience contributing to a collaborative team project focused on web application development. Engaged actively in daily stand-ups and ensured strong contributions to sprint planning meetings, enhancing knowledge of Agile frameworks and practical software work.

- Contributed actively to web application development as part of a diverse team.
- Gained familiarity with Node.js and React technologies, focusing on API integrations.
- Participated in daily Agile ceremonies to strengthen collaborative programming skills.
- Strengthened teammate relationships while developing technical capabilities.

LEADERSHIP & AWARDS

- Outstanding Contributor Award - Tech Innovations Inc.
- Best Team Player Award - NextGen Solutions

EDUCATION

Bachelor's Degree in Computer Science

University of Illinois 📅 GPA: 3.6 📅 2019 📍 Champaign, IL

MY CAREER

● Software Engineer at Tech Innovations Inc. (4 Years)

● Junior Software Engineer at NextGen Solutions (2.3 Years)

● Intern at Bright Future Technologies (6 Months)

Coursework: Data Structures, Algorithms, Database Management, Web Development

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA) 📅 2021
- AWS Certified Solutions Architect – Associate 📅 2022

TECHNICAL SKILLS

- **Backend Development:** Node.js
- **Frontend Development:** React
- **Cloud Services:** AWS
- **Containerization:** Docker
- **Continuous Integration:** Jenkins
- **Database Management:** PostgreSQL
- **API Development:** RESTful
- **Analytics Tools:** Grafana
- **Version Control:** Git
- **Workflow Automation:** Zapier

PROFESSIONAL AFFILIATIONS

- Member, Association for Computing Machinery (ACM)
- Volunteer, Code.org
