STRENGTHS

- Data Interpretation**
Consistently translate complex data into meaningful insights for stakeholders.
- Team Collaboration**
Frequently build relationships across departments, enhancing workflow efficiency.
- Problem Solving**
Proactively resolve issues by applying strategic recommendations and insights.
- Time Management**
Effectively prioritize tasks, ensuring deadlines are consistently met or exceeded.
- Technical Skills**
Gained recognition for advanced proficiency in analytical tools and methodologies.

SKILLS

- Data Analysis Reporting
- Database Management
- Trend Identification
- SAS Programming SQL Skills
- Data Visualization
- Relationship Building
- Problem Solving
- Analytical Thinking
- Time Management
- Business Intelligence
- Customer Service
- Project Management

SUMMARY

Detail-oriented data analyst eager to support strategic initiatives with analytical solutions. Skilled in using advanced tools and methodologies for deep data insights, aiming to enhance operational efficiency and promote business success. Experience in creating actionable reporting and visualizations has facilitated major improvements. Proven collaborator, effectively working with cross-functional teams to tackle challenges, leading to meaningful outcomes. Track record includes diagnosing complex issues and implementing recommendations that positively impact results. Looking forward to contributing expertise in data analysis within a progressive environment.

EXPERIENCE

Data Analyst Intern

XYZ Data Solutions 📅 June 2025 - August 2026 📍 San Diego, CA

Focused on analyzing data trends to support strategic business decisions. Delivered reports and insights using various tools. Collaborated with teams to unify approaches toward problem-solving across departments.

- Conducted analyses to identify payment variances, enhancing payment processes.
- Developed detailed reports that provided insights into project goals.
- Created innovative data visualization strategies for effective communication.
- Maintained automated data processes, ensuring accuracy and integrity.

Research Assistant

University of California, San Diego 📅 September 2024 - May 2025 📍 La Jolla, CA

Assisted in data collection and analysis for economic research projects. Engaged in statistical modeling and interpretation of research findings during project phases.

- Collaborated with researchers to gather and analyze complex datasets.
- Designed visual content for presenting research findings to stakeholders.
- Created comprehensive documentation of processes to ensure reproducibility.
- Used SQL and Excel to manage large data sets efficiently.

Data Analytics Intern

Tech Innovations Ltd. 📅 January 2025 - May 2025 📍 Remote

Engaged in analytics projects to advise on company-wide improvements. Worked with cross-functional teams to optimize data usage for better decision-making.

- Implemented analytical techniques to evaluate company performance and ROI.
- Presented management reports detailing project outcomes and recommendations.
- Utilized advanced Microsoft tools for data tracking and report creation.
- Supported ad hoc data mining projects using relevant software solutions.
