

Santiago Joshi

Applied AI Engineer & Researcher

JUNE 16, 2026

Innovative Tech Solutions
Hiring Manager
Ithaca, MI

Dear Hiring Manager,

I am thrilled to apply for the Applied AI Engineer position at Innovative Tech Solutions. This role truly resonates with my background and passion for developing user-focused AI solutions, where user delight consistently tops the priority list.

At Tech Innovations, I led impactful research projects on natural language processing, combining creative strategies with proven methodologies. In collaboration with experienced engineers, I successfully deployed machine-learning models, significantly enhancing user satisfaction metrics.

Transitioning from various roles, including Junior AI Researcher, presented its challenges. Each experience solidified my resolve to innovate relentlessly while addressing real-world problems in user interaction. These endeavors drove my commitment to excellence.

My programming expertise in Python, combined with familiarity in TensorFlow and PyTorch, powers my creations. I understand the importance of continuous improvement, especially in deploying TTS models at scale and enhancing overall product quality.

I believe my journey mirrors your commitment to fostering creativity and risk-taking in technology. I deeply appreciate the chance to contribute to your vibrant and entrepreneurial culture.

I look forward to discussing this role further.

Thanks,

Santiago Joshi
