SUMMARY

Applied AI Engineer with over 3 years of experience deploying AI solutions and enhancing customer interactions through technology. Proficient in machine learning algorithms and skilled in Python programming. Drove impactful projects while collaborating with cross-functional teams. Notable for effectively communicating complex concepts to diverse stakeholders, ensuring that all parties fully engage with the technology at hand and its potential benefits. Committed to staying current with advancements in AI, committed to guiding clients through integration processes. Eager to make a significant impact at Tech Innovations Inc. by leveraging experience in Generative AI applications.

STRENGTHS

- Client Engagement**
Created strong relationships with clients by actively listening and tailoring solutions that resonate.
- Technical Communication**
Demonstrated ability to explain intricate AI concepts clearly, fostering a better understanding across all levels.
- Team Collaboration**
Excelled in cross-functional teamwork, driving projects forward through strong partnerships and open forums.
- Problem-Solving**
Embraced challenges creatively, routinely recommending innovative approaches when faced with technical hurdles.
- Adaptability**
Quickly adjusted to new challenges and tools, reflecting flexibility essential for evolving technology landscapes.

SKILLS

- Machine Learning
- Python Programming
- Data Analysis
- Client Relationship Management
- Communication Skills
- Model Deployment
- Fine Tuning LLMs
- NLP Applications Deep Learning
- AI Solutions Statistical Analysis

EXPERIENCE

Machine Learning Engineer

Tech Solutions Corp. 📅 March 2024 - Present 📍 San Diego, CA

Focus on customizing AI solutions that optimize integration and enhance client satisfaction. Collaborated closely with clients, ensuring user-friendly experiences. Held workshops to provide clients effective product usage strategies while ensuring feedback directly impacts product evolution.

- Collaborated with clients to customize AI solutions, ensuring optimal integration and user experience.
- Developed and deployed machine learning models to improve product performance and client satisfaction.
- Conducted workshops and training sessions for clients on product capabilities and effective usage.
- Analyzed customer feedback to refine product features and enhance service delivery.

Junior Data Scientist

Data Dynamics LLC 📅 January 2023 - February 2024 📍 Los Angeles, CA

Contributed as part of a data science team focusing on implementing machine learning algorithms for production. Played a vital role in meetings to gather requirements, presenting findings clearly.

- Assisted in development of predictive models and data analysis for client projects.
- Worked alongside senior data scientists to implement machine learning algorithms in production.
- Participated in client meetings to gather requirements and present technical findings.
- Collaboratively worked to address client needs with tailored technological solutions.

Data Science Intern

Innovative Analytics Group 📅 June 2022 - December 2022 📍 Los Angeles, CA

Supported data science initiatives by analyzing datasets and assisting in model building. Contributed to documentation and engaged in training on best practices around machine learning.

- Supported the data science team in analyzing datasets and building preliminary predictive models.
- Contributed to documentation and reporting of project outcomes and methodologies.
- Engaged in training sessions on machine learning tools and best practices.
- Offered recommendations based on analyses that informed project directions without sacrificing communication integrity.

LEADERSHIP & AWARDS

- Recognized as Employee of the Month at Tech Solutions Corp. for exceptional work in client customization and satisfaction.
- Completed advanced data science training workshop focused on LLMs and deployment techniques offered by recognized industry leaders.

MY CAREER

● Machine Learning Engineer at Tech Solutions Corp. (2.2 Years)

● Junior Data Scientist at Data Dynamics LLC (1.1 Years)

● Data Science Intern at Innovative Analytics Group (6 Months)

EDUCATION

Master's Degree in Data Science

University of Southern California 🎓 GPA: 3.8 📅 2022 📍 Los Angeles, CA

Coursework: Machine Learning, Data Visualization, Predictive Analytics, Statistical Methods

CERTIFICATIONS

- Certified Machine Learning Specialist 📅 2023
- Python for Data Science Certification 📅 2023

TECHNICAL SKILLS

- **Programming Languages:** Python, R, SQL
- **Frameworks:** TensorFlow, PyTorch, Scikit-learn
- **Visualization Tools:** Tableau, Matplotlib, Seaborn
- **Data Processing:** Pandas, NumPy, Spark
- **APIs:** REST, SOAP, GraphQL
- **Version Control:** Git, GitHub, SVN
- **Cloud Platforms:** AWS, Google Cloud, Azure
- **Database Management:** MySQL, PostgreSQL, MongoDB
- **Deployment Tools:** Docker, Kubernetes, Jenkins
- **Communication Tools:** Slack, Zoom, Microsoft Teams

PROFESSIONAL AFFILIATIONS

- Active member of Women in Technology, advocating for diversity and inclusion within the tech field.
- Volunteer mentor for aspiring data scientists, offering guidance and support in their journeys into AI.
