- Preventive maintenance
- Diesel servicing
- Class 7 inspections
- Emissions inspections
- Fleet maintenance
- Construction equipment
- Tire service Refrigerant recovery
- Road service Oil changes
- Tune ups Safety procedures
- Inspection records
- Valid driver's license

SUMMARY

Automotive Mechanic with eight years of progressive experience maintaining passenger vehicles, trucks, tractors, **construction equipment**, diesel systems, and **powered hand tools**. Performs preventive maintenance, diagnostics, oil changes, tune ups, tire service, system adjustments, component replacement, safety inspections, emissions inspections, and emergency road repairs across mixed fleet environments. Pennsylvania Certified Inspection Mechanic for **Class 7 vehicles** with CFC 12 and 134A Refrigerant Recycling Certificates and a valid Pennsylvania driver's license. Maintains accurate inspection records, organized tools, **clean work areas**, and safe shop practices. Diagnoses mechanical faults through testing and practical troubleshooting, then completes repairs that support dependable fleet availability. Brings steady field service judgment and a hands on approach that can support safe, compliant daily operations.

EXPERIENCE

Automotive Mechanic

Susquehanna Municipal Fleet Services 📅 June 2022 - Present 📍 Lancaster, PA

Supports daily fleet readiness across cars, trucks, tractors, construction equipment, diesel systems, and powered tools. Owns preventive maintenance, inspections, diagnostics, records, field repairs, and safe bay operations for municipal service needs.

- Maintained cars, trucks, tractors, and construction equipment for dependable daily fleet operations.
- Diagnosed brake, steering, suspension, cooling, electrical, fuel, and driveline faults with test equipment.
- Completed **oil changes**, tune ups, tire service, fluid work, adjustments, and **preventive maintenance**.
- Performed Class 7 safety and **emissions inspections**, then completed required records and stickers.
- Serviced diesel equipment through component replacement, scheduled maintenance, and system repair.
- Provided **emergency road service** and **field repairs** for disabled fleet equipment.
- Kept work areas orderly and followed shop **safety procedures** during active repairs.

Automotive Technician

Red Rose Fleet & Equipment 📅 September 2018 - May 2022 📍 York, PA

Maintained commercial vans, trucks, utility vehicles, diesel equipment, and powered tools in a mixed fleet shop. Built practical diagnostic experience through inspections, component replacement, refrigerant service, documentation, and safe repair routines.

- Repaired commercial vans, **trucks**, utility vehicles, and powered equipment for fleet customers.
- Inspected worn components through measurements, road tests, and system checks before repairs.
- Replaced brakes, tires, belts, hoses, filters, batteries, and other service components.
- Completed diesel fluid service, basic repairs, component replacement, and operational checks.
- Applied CFC 12 and 134A refrigerant recovery practices during climate control service.
- Documented completed work and maintained clean, safe work areas with organized tools.
- Supported field repair needs by preparing equipment for reliable return to service.

PROJECTS

Mixed Fleet Readiness Program 📅 2024

Reliable equipment keeps public services moving. Improved preventive maintenance coordination across vehicles, diesel equipment, and construction assets, supporting safer inspections and stronger daily availability.

MY CAREER

● Automotive Mechanic at
Susquehanna Municipal Fleet
Services (4.2 Years)

● Automotive Technician at
Red Rose Fleet & Equipment (3.7
Years)

Field Repair Response Improvement 📅 2021

When equipment fails away from the shop, practical support matters. Strengthened roadside troubleshooting and repair preparation for faster, safer returns to service.

LEADERSHIP & AWARDS

- Recognized by fleet leadership for dependable Class 7 inspection work and accurate records.
- Trusted by peers for practical diagnosis of difficult diesel and electrical faults.
- Selected for recurring field repair support across mixed municipal equipment.

EDUCATION

Automotive Technology Diploma

Thaddeus Stevens College of Technology 🎓 GPA: 4.0 📅 2018 📍 Lancaster, PA

Coursework: *Automotive diagnostics, diesel systems, preventive maintenance, safety inspections, electrical systems*
