SUMMARY

Enthusiastic Software Engineering student with hands-on experience developing back-end services and optimizing user experiences. Proficient in PHP and C#, known for collaborative problem-solving skills. Experience gained through project-led learning at university and collaborating on team projects. Eager to contribute technical skills to a dynamic technology firm while learning from experienced professionals.

EDUCATION

Bachelor's Degree in Software Engineering

2024

University of Colorado Boulder GPA: 3.8

Boulder, CO

Coursework: Data Structures, Web Development, Database Systems, Software Testing

TECHNICAL SKILLS

- **Programming Languages:** PHP, C#
- **Development Tools:** Visual Studio, Git
- **Testing Frameworks:** JUnit, PHPUnit
- **APIs:** RESTful Services
- **Project Management:** Agile Development
- **Database Systems:** MySQL, SQL Server
- **Collaboration Tools:** Slack, Zoom
- **Deployment:** Docker
- **DevOps Practices:** CI/CD
- **Version Control:** GitHub

SKILLS

- PHP
- C#
- API Development
- Debugging
- Unit Testing
- Problem Solving
- Collaboration
- Web Development
- Service Optimization
- Documentation
- Software Testing
- Frameworks
- Version Control
- Database Design
- Agile Methodologies
- Cross-Functional Teamwork

EXPERIENCE

Software Developer

January 2025 – Present

Tech Solutions Group

Houston, TX

Develop backend services, focusing on performance enhancement and collaboration within a cross-functional team. Participate actively in addressing software issues and providing user-centric solutions.

- Design and implement robust back-end services using PHP and C#.
- Collaborate within teams, aiding in identifying and resolving unresolved software issues effectively.
- Conduct thorough unit testing and debugging to guarantee optimal application functionality.

Junior Software Developer

June 2024 – December 2024

Creative Tech Inc.

Austin, TX

Assisted development of various APIs and services aimed at improving application utility. Engaged in code reviewing and contributed to the documentation needed for effective onboarding.

- Supported seniors in development of essential APIs and back-end services for varied client projects.
- Participated in comprehensive code reviews and contributed to ongoing project documentation.
- Facilitated troubleshooting efforts by analyzing existing codebases and assisting with optimization needs.

Intern

September 2023 - June 2024

University Project

Remote

Engaged in various academic projects contributing to software design and implementation, enhancing capabilities in teamwork and practical coding skills.

- Contributed to a group project aimed at building a simple eCommerce web platform.
- Optimized back-end functionalities resulting in improved service response times during testing phases.
- Developed unit tests for critical components, ensuring reliability before final rollouts.

LEADERSHIP & AWARDS

- Dean's List - Recognized for academic excellence during consecutive terms.
- Coding Challenge Champion - Won first place in annual university hackathon.

CERTIFICATIONS

- Certified PHP Developer 📅 2025
- C# Programming Certification 📅 2025

PROFESSIONAL AFFILIATIONS

- Member of Student Software Engineers Club - Collaborating with peers on development-related activities.
- Volunteer at local tech workshops - Assisting young learners with basic programming.

LANGUAGES

- English (Native) • Spanish (Proficient)
