

Edwin Rice

Bridge Engineering Intern

AUGUST 12, 2026

Hiring Manager
Innovative Engineering Solutions
Indianapolis, IN

Dear Hiring Manager,

I am eager to submit my application for the Bridge Engineering Intern position at Innovative Engineering Solutions. This opportunity combines my zeal for civil engineering and my practical experiences I have developed thus far, reflecting my aspirations and determination to excel in the industry.

In my academic endeavors, I have engaged in various projects showcasing my ability to tackle intricate problems. Team projects have tested my limits, yet I found ways to solve issues with creativity and resilience. Collaboration has been a bread-and-butter skill, helping me thrive amid challenges.

During my role as a Bridge Design Developer, our team crafted a pedestrian bridge where I led efforts utilizing AutoCAD and Microstation to detail design. Encountering obstacles, I not only conducted rigorous structural analysis but also adapted to modifications that arose throughout the project.

Reflecting on my past, I often approached tasks unsure of whether I could deliver. Yet, with every project, I found my confidence strengthening, ultimately presenting designs to peers and faculty. Sharing innovative ideas helped me realize my passion for engineering extends beyond numbers and graphs.

As I look ahead to the future, my enthusiastic pursuit of knowledge in structural and transportation engineering drives me. I hope to bring this fervor to your remarkable team, aspiring to contribute my skills through innovative designs while learning from your established expertise.

Thank you for your consideration.

Sincerely,

Edwin Rice
