

Jessica Morgan

C++ Software Engineer

📞 (312) 555-0248 ✉️ jessica.morgan@example.com 🔗 linkedin.com/in/jessicamorgan 📍 4321 Oak St, Chicago, IL 60614

STRENGTHS

- Collaboration**
Maintained open channels with diverse teams, ensuring smoother execution and unity across functions.
- Creative Problem Solver**
Approached challenges with unique perspectives, becoming a go-to resource during project hurdles.
- Adaptability**
Quickly adjusted strategies based on evolving project demands, keeping objectives aligned and on track.
- Analytical Mindset**
Broke down complex problems into manageable parts, generating effective solutions efficiently.
- Technical Expertise**
Possessed deep understanding of C++ and complemented with foundational Python knowledge, contributing hands-on tech solutions.

SKILLS

C++ Python RESTful APIs
Microservices Distributed Systems
Data Processing
Software Development
System Design
Agile Methodologies Debugging
Collaborative Programming
Problem Solving
Code Optimization Version Control
System Architecture

SUMMARY

Dedicated and detail-oriented C++ Software Engineer with extensive experience in developing high-performance systems. Proficient in modern C++ and knowledgeable in Python, a strong capability exists in designing and consuming RESTful APIs, ensuring smooth integration within microservices architectures. Possessing a solid academic background in Computer Science, adept at working on large-scale distributed systems prioritizing low-latency performance. Collaborative approach has proven effective in aligning technical solutions with stakeholder needs, driving successful project outcomes. Eager to leverage technical skills and passion for performance-driven technology in challenging environments.

EXPERIENCE

Software Engineer

Innovate Tech Solutions 📅 January 2025 - Present 📍 Chicago, IL

Design and develop high-performance systems utilizing C++. Collaborated with team members for seamless integration of microservices within distributed systems. Engaged in managing extensive data processing platforms with low-latency requirements.

- Designed high-performance architectures supporting critical applications.
- Developed extensive RESTful APIs enabling consistent service functionality.
- Participated actively in the entire development lifecycle, enhancing overall project output.
- Integrated feedback from stakeholders, improving alignment between technical solutions and needs.

Junior Developer

Creative Solutions Inc. 📅 June 2023 - December 2024 📍 Remote

Contributed to projects focused on efficient system architecture using modern C++. Enhanced existing software components and improved application reliability in various modules under supervision.

- Assisted in designing performant back-end services to streamline workflows.
- Implemented essential features while maintaining excellent code quality.
- Collaborated with cross-functional teams fostering innovative solutions.
- Tested and validated enhancements ensuring meet specs before deployment.

Intern

NextGen Developers 📅 June 2022 - May 2023 📍 Remote

Engaged in practical development work using C++ and Python frameworks. Provided backend support for key applications focusing on low-latency requirements.

- Facilitated development of resilient applications by implementing robust interfaces.
- Participated in debugging efforts, lowering defect rates in production.
- Supported transition to serverless architecture reducing costs significantly.
- Conducted peer reviews boosting software quality through collaborative insights.

PROJECTS

Scalable Microservices Framework 📅 March 2024

Led development of a scalable microservices framework that facilitated seamless interactions among components. Ensured adherence to best practices and optimal response times.

Low-Latency Data Processing System 📅 September 2023

Spanish Proficient

MY CAREER

● Software Engineer at Innovate Tech Solutions (1.3 Years)

● Junior Developer at Creative Solutions Inc. (1.5 Years)

● Intern at NextGen Developers (11 Months)

Engineered a low-latency data processing system handling real-time analytics requirements, elevating overall data throughput.

PORTFOLIO

Title: Portfolio of Past Projects

Link: GitHub

Description: View a collection of my previous work demonstrating software engineering capabilities.

LEADERSHIP & AWARDS

- Dean's List Recipient for three consecutive years showcasing academic excellence.
- Best Team Project Award at University Hackathon demonstrating innovation and collaboration.

EDUCATION

Bachelor's Degree in Computer Science

University of Illinois 🎓 GPA: 3.85 📅 2024 📍 Champaign, IL

Coursework: Data Structures, Algorithms, Operating Systems, Software Engineering

CERTIFICATIONS

- Certified C++ Programmer 📅 2025
- Python Development Certificate 📅 2025

TECHNICAL SKILLS

- **Programming Languages:** C++, Python
- **API Design:** RESTful APIs
- **System Architecture:** Microservices
- **Development Tools:** Visual Studio, Git
- **Testing Frameworks:** Google Test
- **Methodologies:** Agile, Scrum
- **Database Management:** MySQL, PostgreSQL
- **Cloud Services:** AWS, Azure
- **Monitoring Tools:** Prometheus, Grafana
- **Containerization:** Docker

PROFESSIONAL AFFILIATIONS

- Member of the Institute of Electrical and Electronics Engineers (IEEE) engaging in various development activities.
- Volunteer Mentor for local coding bootcamp encouraging future aspiring developers.
