SUMMARY

Class A **CDL shuttle driver** with four years of verified **tractor trailer experience** supporting plant, warehouse, and yard transportation operations. Holds **Hazmat endorsement** and valid DOT medical certification, with a **clean driving record** and consistent attention to safe freight movement. Experienced positioning tractors and trailers, completing backing procedures, checking airline and electrical connections, securing docks with wheel chocks, and verifying trailer jack stands. Maintains accurate trailer records, vehicle positions, inspection logs, and basic computer entries. Communicates clearly through cellular telephone and two way radio with warehouse supervisors, loading crews, dispatchers, and operations personnel. Works independently across changing afternoon and evening priorities, follows manufacturer instructions and site procedures, performs minor maintenance, supports yard security, and completes overtime coverage when business needs require it.

EXPERIENCE

CDL Shuttle Driver

June 2024 - Present

Crossland Distribution Services

South Bend, IN

Supports plant to warehouse shuttle operations across active yards and **loading areas**. Coordinates trailer movement, dock readiness, equipment condition, records, and safety communication during afternoon and evening shifts.

- Operate Class A shuttles between plant and warehouse locations, maintaining safe movement through active yards.
- Position trailers at assigned doors using backing signals, **wheel chocks**, and jack stand checks.
- Complete daily tractor, trailer, airline, and electrical inspections before scheduled shuttle operations begin.
- Record **trailer numbers** and yard positions in computer logs, giving operations reliable equipment visibility.
- Maintain radio and cellular communication during dock congestion, schedule changes, and equipment swaps.
- Support **yard security**, site access procedures, and **overtime** shuttle coverage during increased shipment volume.

Tractor Trailer Driver

September 2022 - May 2024

Prairie State Logistics

Elkhart, IN

Handled regional freight routes with **Class A combination vehicles** across warehouse receiving operations. Managed equipment checks, drop and hook movements, delivery records, **DOT compliance**, and changing route priorities with limited supervision.

- Transported regional freight in **combination vehicles** exceeding applicable commercial weight thresholds on warehouse routes.
- Executed backing and trailer placement at receiving areas after checking clearance and connection integrity.
- Performed vehicle inspections and minor upkeep using manufacturer guidance, documenting defects before delivery interruptions.
- Applied DOT requirements and **defensive driving** practices while maintaining medical qualification and clean records.
- Reconciled trailer identifiers, shipping records, basic math, and computer entries for accurate equipment status.
- Adjusted work across outdoor and warehouse conditions, completing assigned transportation tasks with courteous communication.

PROJECTS

Plant Warehouse Shuttle Operations 📅 2026

Supported recurring shuttle movements between production and warehouse areas, with focus on safe backing, dock security, trailer tracking, and clear communication during changing priorities.

Trailer Inspection and Dock Safety 📅 2025

Applied daily inspection routines covering connections, wheel chocks, jack stands, and minor maintenance, helping keep loading and unloading activity orderly.

LEADERSHIP & AWARDS

- Recognized by operations teams for dependable afternoon shuttle coverage and clear communication during dock changes.
- Commended for consistent inspection habits, safe backing practices, and accurate trailer position records.
- Trusted with independent yard movements and overtime coverage during periods of increased freight volume.
