EXPERIENCE

Certified Medication Assistant

January 2023 - Present

University Project

Remote

In the project focused on medication administration within simulated scenarios, provided significant insights into augmenting resident-centered approaches. Collaborated with peers to devise comprehensive care plans addressing both physical and mental health needs of residents. Culminated results enhance understanding and proper documentation processes suitable for real-life applications.

- Provided high standards of resident care, emphasizing dignity and personal preferences during activities.
- Collaborated with a multi-disciplinary team to ensure effective meal preparations and assistive dining experiences.
- Conducted regular assessments of vital signs while accurately documenting improvements or changes in care plans.
- Developed frameworks aimed at supporting wellness programs, encouraging active participation from residents.
- Nurtured a positive environment through tailored assistance, ensuring residents' comfort and engagement.
- Engaged with community resources to improve understanding of health options available to residents.

Medication Aide

June 2022 - December 2022

Health Services Intern

St. Paul, MN

Worked under direct supervision of licensed nurses, implementing protocol-driven safe medication practices while developing bedside manner and patient rapport. Gained extensive hands-on experience in interacting with diverse patients and gaining critical nursing insights.

- Administered medications methodically while demonstrating adherence to established safety protocols.
- Accurately documented medication logs and caregiver notes relating to resident well-being.
- Supported residents with daily routines, skillfully maintaining respect and compassion essential for comfort.

- Effectively communicated responses related to care interventions to nursing staff facilitating rapid decision-making.
- Participated meaningfully in team discussions that targeted systemic improvements in care strategies.
- Upheld safety and hygiene standards ensuring an immaculate living space conducive to healing.

Capstone Project Developer

January 2021 - May 2022

Health Care Assistant

Minneapolis, MN

Executed a capstone project centered on refining medication management in long-term care settings. Engaged in best practices research while influencing training regimens based on innovative findings. Aimed to address broad wellness outreach while improving operational effectiveness across stakeholder interactions.

- Designed pedagogical models for efficient training among staff on new compliance measures and documentation methods.
- Enhanced resident involvement in daily living activities which nurtured independence and self-worth.
- Coordinated outreach efforts intending to educate families on healthcare solutions and service choices.
- Aggregate metrics informed future planning for ongoing enhancements in resident support procedures.
- Documented rich findings leading to actionable plans intended to elevate overall resident satisfaction.
- Evaluated and critiqued projects delivering constructive feedback aimed at improving services moving forward.
