

Lorenzo Jennings

Chemical Engineering Co-op

JULY 05, 2026

Hiring Manager
Innovative Imaging Solutions
Rochester, NY

Dear Hiring Manager,

I am exhilarated to express my interest in the Chemical Engineering Co-op role at Innovative Imaging Solutions, where exploration meets innovation; that synergy perfectly matches my aspirations and burgeoning expertise.

In this vibrant atmosphere, I foresee myself tackling riveting challenges that require both imagination and methodical thought, all while absorbing wisdom from seasoned professionals who are passionate like me about shaping future technology.

Throughout my academic journey, I wrestled with complex concepts, yet those struggles shaped my commitment. For instance, participating in a hackathon enabled my team to develop a sustainable process prototype that captured judges' commendation, highlighting both teamwork and determination.

I thrive when collaborating with others; whether assisting in research to enhance polymer properties or analyzing data to refine processes, my drive to improve and learn remains unwavering.

I relish the prospect of this co-op, where mutual learning exists; by contributing innovative ideas and continuing my education under experienced geeps, I am eager to embrace growth.

Thank you for considering my application.

Sincerely,

Lorenzo Jennings
