SUMMARY

Detail-oriented Clinical Lab Technical Specialist boasting four years of experience in laboratory settings, specifically focusing on clinical genomics and microbiology. Proven success in developing laboratory protocols, executing statistical analyses, and ensuring compliance with safety requirements. Known for strong communication skills that enhance collaboration across multidisciplinary teams to improve patient care and streamline laboratory operations. Authorized to validate new testing methods while adhering strictly to FDA guidelines, emphasizing a commitment to continuous improvement and educational advancement within the lab environment.

STRENGTHS

Strong Analytical Skills

Expertise in statistical analysis led to higher diagnostic accuracy, fostering confidence in medical recommendations.

Effective Communicator

Communicated complex information clearly among multidisciplinary teams, facilitating better outcomes for patient care.

Adaptive Problem-Solver

Engaged in several troubleshooting initiatives, supporting teams in overcoming technical barriers effectively.

Process Improvement Advocate

Initiated changes in workflow that led to smoother laboratory operations and enhanced efficiency metrics.

Team Collaboration

Worked with varied professionals, becoming a trusted resource for complex testing challenges that often arose.

EXPERIENCE

Clinical Lab Technical Specialist

MediTech Labs 📅 January 2023 - Present 📍 Springfield, IL

Provide technical expertise as a Clinical Lab Technical Specialist, supporting diverse laboratory sections like molecular pathology and clinical genomics. In this role, collaborate with medical staff to ensure high-quality testing processes while steering assay validation initiatives in line with safety and regulatory laws.

- Spearheaded development and validation of innovative laboratory assays, boosting capabilities in clinical genomics.
- Served as key technical resource for hospital staff, offering guidance in complex testing procedures.
- Contributed to statistical analysis efforts, enhancing adherence to established testing standards.
- Worked closely with Medical Directors, crafting and reviewing critical SOPs for regulatory compliance.
- Managed integration of advanced laboratory instruments, optimizing operational workflows and data accuracy.
- Conducted maintenance and functional checks on lab equipment, safeguarding reliability and optimal performance.

Laboratory Technician

HealthFirst Labs 📅 June 2020 - December 2022 📍 Peoria, IL

Performed clinical evaluations delivering essential lab results crucial for accurate patient diagnostics. Helped refine training programs, enhancing technical understanding among lab personnel by sharing updates on industry best practices.

- Carried out precise laboratory tests in chemistry and microbiology, aiding diagnosis efforts.
- Developed educational resources promoting up-to-date methodologies and teaching strategies.
- Assisted in incorporating new instruments, positively impacting testing efficiency.
- Provided consultations regarding test interpretation, guiding procedural pathways.
- Collaborated cross-functionally to diagnose technical challenges, improving laboratory functions.
- Maintained comprehensive health compliance over audit sessions, strengthening safety measures.

Laboratory Assistant

Innovative Medical Solutions 📅 August 2018 - May 2020 📍 Naperville, IL

Supported daily laboratory operations including specimen processing, contributing significantly to workflow efficiency and quality control. Engaged in ongoing education to remain informed about advancements and best practices in laboratory science.

- Helped facilitate laboratory tasks through adept specimen handling and documentation.
- Instrumental in implementing new processes that enhanced overall operations quality.
- Participated in competency assessments, reinforcing compliance regulations.
- Actively engaged in workshops, enhancing skill set related to emerging lab technologies.
- Managed routine checks and preventative maintenance of technical equipment, ensuring readiness.

Laboratory Equipment Maintenance

- Clinical Genomics
- Microbiology Expertise
- Regulatory Adherence
- Analytical Methods
- Educational Resource Development
- Problem Resolution
- Data Management
- Testing Appropriateness Consultation

LANGUAGES

MY CAREER

- Aligned efforts with senior staff for identifying and solving technical issues collaboratively.

LEADERSHIP & AWARDS

- Awarded 'Best Practices Award' for innovating laboratory protocols at HealthFirst Labs in April 2021.
- Recognized on Dean's List during Bachelor studies at University of Illinois from 2016 to 2018.

EDUCATION

Bachelor's Degree in Clinical Laboratory Science
University of Illinois 🎓 GPA: 3.7 📅 2018 📍 Champaign, IL
Coursework: Clinical Microbiology, Clinical Chemistry, Molecular Diagnostics, Immunology

CERTIFICATIONS

- Clinical Laboratory Scientist (CLS) 📅 2019
- Certified Medical Technologist (MT) ASCP 📅 2020

TECHNICAL SKILLS

- Laboratory Techniques:** PCR, ELISA, Microscopy
- Statistical Software:** SPSS, R, SAS
- Quality Control Systems:** ISO 15189, CAP, CLIA
- Laboratory Information Systems:** LabWare, StarLIMS, Siemens
- Safety Regulations:** OSHA, CDC Guidelines, HIPAA
- Analytical Instruments:** Spectrophotometer, Autoclave, Centrifuge
- Documentation Standards:** Source Document Verification, SOP Writing, Compliance Auditing
- Clearance Certification:** BLS Certified, CPR Certified, First Aid Certified
- Training Programs:** New Employee Orientation, On-the-Job Training, Continuing Education
- Professional Associations:** ASM, AACC, CLMA

PROFESSIONAL AFFILIATIONS

- Member of the American Society for Clinical Laboratory Sciences since January 2019.
- Volunteer for Community Health Fair since March 2022, providing health screening services.
