

George Stanley

College Intern - Geologist

AUGUST 15, 2026

Hiring Manager
Geologic Solutions Inc.
Baltimore, MD

Dear Hiring Manager,

I am thrilled to apply for the College Intern - Geologist role at Geologic Solutions Inc., as this position perfectly aligns with my burgeoning abilities and fervent passion for geology, an extraordinary opportunity to merge my enthusiasm with intricate problem-solving tasks that affect our environment.

With a commitment to pushing boundaries, I aspire to contribute meaningfully to your projects and initiatives while embracing the core values of your esteemed firm, which prioritize sustainability and innovation in reshaping community infrastructure through geological insights.

During my recent geological mapping internship, I undertook field reconnaissance and excelled at classifying soil and rock materials; my meticulous attention resulted in improved accuracy that significantly supported project completion.

Moreover, I have collaborated on interdisciplinary projects where I created dynamic GIS maps that vividly depicted subsurface conditions, which undeniably enhanced the decision-making processes of engineering teams while fostering a spirit of collaboration among peers.

This internship at Geologic Solutions Inc. offers a remarkable platform to further develop my skills among seasoned professionals while contributing to high-impact projects that will shape our community sustainably.

Looking forward to the opportunity,

Sincerely,

George Stanley
