JULY 03, 2026

Hiring Manager
Innovative Financial Solutions
Detroit, MI

Dear Hiring Manager,

I am thrilled to apply for the Commercial Banking Intern position at Innovative Financial Solutions. This opportunity aligns seamlessly with my developing skills and enthusiasm for finance, where every analysis can pivot investments. I embrace this thrilling aspect of finance with open arms, ready to contribute with fervor.

Throughout my various internships, I discovered how teamwork is essential in achieving great results. While interning as a Financial Analysis Intern, I assisted my team in analyzing financial statements, revealing insight into trends and growth. I learned how vital precise report preparation is while ensuring clarity and impact in presentations.

Collaboration has flourished in this role; we exchanged feedback that enriched our outcomes. An example includes supporting database management, where I ensured accuracy during data entry, ultimately refining our entire workflow. Our efforts were commended by faculty, which reassured me about our shared mission.

I also enjoyed shadowing senior professionals, soaking in their knowledge about risk management and client service expectations. This invaluable exposure ignited my passion for the finance sector and grounded my understanding of banking nuances. I believe this aligns closely with the immersive experience at your esteemed firm.

As I approach graduation in May 2026, I am not just a student but a motivated individual eager to contribute creatively. I envision myself immersed in the company's culture, partaking in any training events that foster impactful skills and insights. I am less intimidated now by challenges; instead, I focus on how to overcome them, nurturing my growth.

Thank you for considering my application.

Sincerely,

Malachi Flynn
