SUMMARY

Consumer and market insights student candidate with hands on experience supporting survey design, **data collection**, **qualitative research**, **quantitative analysis**, dashboard updates, and research reporting. Academic research projects have built practical skill in organizing customer feedback, identifying behavior themes, and presenting findings clearly for product and marketing decisions. Work in a marketing research lab strengthened data preparation, visual storytelling, documentation, and collaboration with student teams. Curiosity and careful **attention to detail** guide each research assignment, from shaping questions through interpreting results. Comfortable learning from mentors, communicating with research, design, engineering, and marketing partners, and turning evidence into useful recommendations that support thoughtful business strategy.

EXPERIENCE

Market Insights Intern, Consumer Research Capstone Project

January 2026 - August 2026

Consumer Research Capstone Project

Detroit, MI

Supported a supervised consumer behavior research project from survey planning through analysis, dashboard development, reporting, and recommendations. Worked with student researchers to connect customer evidence with product and **marketing decisions**.

- Designed survey questions for consumer behavior research and gathered structured response data.
- Analyzed survey responses with quantitative methods, clarifying patterns for project recommendations.
- Organized interview feedback into customer themes that supported **qualitative research** reporting.
- Built dashboards and visual reports that made findings easier for teams to review.
- Prepared **presentations** linking customer insights with practical product **recommendations** for review.
- Documented **research** methods and project records, keeping assignments clear for team reference.
- Collaborated with student teams to evaluate customer needs and market trends.

Research Assistant, University Marketing Research Lab

September 2025 - December 2025

University Marketing Research Lab

Detroit, MI

Contributed within a supervised university research lab supporting consumer research, data collection, analysis summaries, presentation materials, and organized archives. Learned how careful records and clear storytelling strengthen review of customer evidence.

- Supported **consumer research** activities through structured **data collection** methods and organized source records.
- Reviewed survey results and prepared concise analysis summaries for academic research discussions.
- Organized research archives so future student projects could locate prior materials efficiently.
- Created visual **storytelling** materials for research **presentations** and academic review sessions.
- Applied basic quantitative methods to interpret customer data and clarify emerging patterns.
- Presented research findings during academic review sessions, responding to questions from peers.
- Collaborated with lab participants while learning consistent research documentation practices.

PROJECTS

Customer Behavior Survey Study August 2026

Designed a consumer survey, organized interview themes, and interpreted response patterns. Presented findings through dashboards and recommendations connecting customer behavior with product decisions.

Marketing Research Visualization Study December 2025

Prepared visual research materials from survey results and customer data. Used structured storytelling to support academic discussion of market trends and customer needs.
