Horizon Media and Entertainment Group
Hiring Manager
Chicago, IL

Dear Hiring Manager,

I am excited to apply for the Creative Marketing Intern position at Horizon Media and Entertainment Group, as this role perfectly aligns with my burgeoning skills and profound interest in media production, creativity, and storytelling, all of which are crucial to captivating an audience.

At Horizon Media, the focus on innovative marketing and engaging content draws me significantly, as I have always aspired to weave compelling narratives that resonate with viewers, turning casual observers into loyal advocates, and I am prepared to contribute my talents to achieve your mission of producing cutting-edge digital experiences.

While studying communications, I gained practical experience in video production and content creation. I worked on several projects that required script writing, editing, and event coordination, showcasing my capability to balance numerous tasks effectively, demonstrating robust time management and communication skills.

I once coordinated a promotional shoot that involved conceptualizing the theme, selecting talent, and editing the final video—all within a tight timeframe. This challenge not only tested my creative skills but also reinforced my confidence when collaborating in a team-based environment. I thrive on teamwork and derive satisfaction from producing visually striking content.

I am particularly enchanted by the collaborative atmosphere at Horizon Media, as it reflects my own values of teamwork and shared creativity—a rare quality that I believe can develop meaningful connections and produce outstanding marketing initiatives.

I look forward to the possibility of contributing my passion for creativity and media production to your esteemed team.

Thanks,

Liam Verma
