SUMMARY

Data analyst with over 6 years in customer experience and market research within finance and insurance sectors. Skilled in both qualitative and quantitative analysis, tools like Tableau, Power BI, and Excel yielded actionable insights that drive performance. Developed detailed analytics plans aligning stakeholder needs with customer feedback, boosting service delivery and satisfaction. Communication strengths shine through visually engaging reports that translate complex data into comprehensible narratives. Eager to continue this work, turning analytical findings into strategic recommendations for impactful customer engagement.

EXPERIENCE

Customer Experience Data Analyst January 2021 - Present
Insightful Analytics Solutions *Chicago, IL*

Contributed critically to customer experience transformation efforts within the organization by employing advanced analytics techniques. Responsibilities included synthesizing user-facing feedback from multiple sources to yield real-time insights, enhancing overall decision-making processes.

- Conducted in-depth analyses of customer feedback, identifying trends and sentiments driving strategic improvements.
- Developed interactive dashboards using Tableau and Power BI, empowering cross-functional teams with essential customer experience metrics.
- Translated comprehensive data sets into meaningful insights, directly influencing the engagement strategies with both customers and brokers.
- Collaborated closely with diverse teams to ensure effective usage of customer insight data, integrating it seamlessly into operational frameworks.

Market Research Analyst June 2018 - December 2020
Data Insights Group *Chicago, IL*

Utilized data-driven methodologies to support and enhance marketing strategies across various initiatives, contributing significantly to area growth during tenure.

- Analyzed unstructured data from channels supporting sentiment analysis while improving customer experience campaigns.
- Presented findings to senior leadership for informed strategic decisions on ongoing projects.
- Designed and maintained dynamic reporting systems aimed at increasing visibility into critical customer satisfaction parameters.
- Worked collaboratively with a team to construct actionable research deliverables based on customer needs.
