

Avery Elliott

Data Scientist, Product Intern

📞 (619) 555-1234 ✉️ avery.elliott@example.com

🌐 linkedin.com/in/averyelliott 📍 San Diego, CA 92101

SUMMARY

Ambitious Master's student specializing in Data Science, eager to leverage a strong foundation in data analysis and visualization. Experience includes extensive work with statistical packages like R, SQL, and MATLAB for impactful business insights. Excellent communicator skilled at presenting complex data findings compellingly tailored to diverse stakeholders. Collaborated closely with cross-functional teams to enhance decision-making processes through actionable insights from various datasets. Keen on contributing practical solutions that drive product improvements and provide tangible benefits to both business goals and customer satisfaction.

EDUCATION

Master of Science in Data Science

University of California, San Diego 🎓 GPA: 3.8 📅 2026 📍 La Jolla, CA

Coursework: Statistical Analysis, Machine Learning, Predictive Modeling, Data Visualization

TECHNICAL SKILLS

- **Statistical Packages:** R, SAS, Stata, MATLAB
- **Data Visualization Tools:** Tableau, R
- **Programming Languages:** Python, R, MATLAB
- **Database Management:** SQL
- **Machine Learning Techniques:** Classification, Regression
- **Project Management Tools:** Trello, Asana, JIRA
- **Data Processing Frameworks:** Pandas, Numpy, Scikit-learn
- **Cloud Platforms:** AWS, Azure, Google Cloud
- **Research Methodologies:** Surveys, Interviews, Focus Groups
- **Documentation Standards:** APA, MLA

EXPERIENCE

Data Science Intern

University Research Lab 📅 June 2025 - Present 📍 San Diego, CA

Supported healthcare initiatives through detailed data analysis and visualization. Enhanced project workflows by collaborating across disciplines.

- Conducted comprehensive data analyses on healthcare datasets, revealing insights that informed policy recommendations.
- Developed interactive dashboards using R and Tableau, effectively communicating findings and enhancing stakeholder engagement.
- Collaborated with interdisciplinary teams to understand requirements, streamline project workflows, and improve deliverable scalability.
- Implemented predictive models to forecast resource needs, supporting optimized allocation planning in healthcare settings.
- Presented research conclusions at academic conferences, praised for clarity and informed insight.
- Participated in technical training sessions focused on advanced statistical methodologies and machine learning.

Statistical Analyst

Academic Research Group 📅 January 2025 - May 2025 📍 Los Angeles, CA

Pioneered statistical projects that supported education reform initiatives. Key contributor to published research on socioeconomic factors related to student performance.

- Analyzed survey data with MATLAB, uncovering relationships between economic factors and educational outcomes.

STRENGTHS

- 💡 **Analytical Problem Solver**
Dived deep into data, transforming it into actionable narratives that support strategic choices.
- 💬 **Effective Communicator**
Regularly delivered presentations that distilled complex analyses into straightforward insights empowering stakeholders.
- 👥 **Team Collaborator**
Unified cross-functional teams around shared objectives, fostering collaboration for achieving collective successes.
- ⚙️ **Technical Agility**
Displayed proficiency in various analytical tools, rapidly adapting methods to meet evolving project requirements.
- ✅ **Quality Focus**
Generated meticulous reports emphasizing accuracy and relevance, thereby earning staff recognition for thoroughness.

MY CAREER

- Data Science Intern at University Research Lab (1.2 Years)
- Statistical Analyst at Academic Research Group (4 Months)
- Lead Data Analyst at Capstone Project (3 Months)

- Employed SQL for data processing tasks, ensuring robustness and integrity across datasets used in analyses.
- Crafted in-depth reports outlining significant findings and suggestions influencing educational policies.
- Contributed to peer evaluations of study designs, enriching research practices through collaborative feedback.
- Developed a machine learning classification model achieving considerable accuracy in predicting student success rates.
- Engaged with faculty to refine methodological approaches and strengthen data sourcing strategies in ongoing studies.

Lead Data Analyst

Capstone Project 📅 September 2024 - December 2024 📍 Remote

- Led an analytical capstone project focusing on retail consumer behaviors, providing insights that influenced marketing tactics.
- Directed efforts analyzing consumer behavior for a local business, delivering results that catalyzed a notable sales increase.
 - Utilized statistical methodologies across tools, conducting A/B testing that improved marketing strategy effectiveness.
 - Presented final findings after collaboratively developing comprehensive visual displays with team members.
 - Ensured timely project delivery through strategic coordination of roles and responsibilities within the team.
 - Conducted market trend analyses to back evidence-based recommendations on inventory placements and pricing tactics.
 - Earned commendation from advisors for exemplary analytical depth and project execution quality.

LEADERSHIP & AWARDS

- Dean's List, University of California, San Diego – 2024
- Dean's List, University of California, San Diego – 2025

CERTIFICATIONS

- Certified Data Analyst 📅 2025
- Google Data Analytics Certificate 📅 2025

PROFESSIONAL AFFILIATIONS

- Member, Data Science Society – 2024 – Present
- Hackathon Team Member, UCSD DataFest – 2025
