SUMMARY

Dynamic Delivery Manager with over 12 years managing enterprise transformation and data engineering projects within the P&C Insurance sector. Proven track record leads large-scale programs using Agile methodologies, ensuring exceptional project delivery. Deep expertise supports stakeholder management and cross-functional leadership. Committed to driving operational excellence while achieving high customer satisfaction. Successfully foster collaboration across teams, enhancing efficiency and execution capability. Actively engaged in strategic planning, aligning objectives with business goals, enabling successful outcomes through effective management of resources and timelines.

EXPERIENCE

Senior Delivery Manager

January 2020 – Present

TechNova Solutions

Chicago, IL

Spearheaded delivery execution for multiple enterprise transformation initiatives, successfully leading projects from planning to closure within budget and time constraints. Focused on fostering collaboration among stakeholders and team members, improving alignment and clarity throughout project lifecycles.

- Executed complex enterprise transformation initiatives, managing each phase from conceptualization through successful implementation.
- Facilitated agile processes, resulting in increased productivity and a brighter atmosphere within project teams.
- Streamlined communication across various stakeholders, ensuring prompt resolution of issues and smooth progress.
- Enhanced project tracking through utilization of KPIs and SLAs, focusing on continual evaluation and improvement efforts.
- Promoted positive relationships with clients during strategic discussions, contributing significantly to client retention and satisfaction.
- Provided mentorship and guidance to junior team members in agile practices, instilling confidence and carefully elevating project skills.

Delivery Program Manager

March 2016 – December 2019

DataVision Corp

San Francisco, CA

Drove end-to-end delivery of complex data engineering projects by meticulously managing their alignment with enterprise transformation goals. Collaborated closely with clients to meet and exceed specifications, furthering project success.

- Led a diverse range of teams for agile transformations, resulting in streamlined operations and improved efficiencies.
- Implemented governance frameworks that set clear benchmarks for performance, guiding teams toward exceptional quality standards.
- Engaged in proactive risk assessment and problem-solving activities, ensuring project momentum remained steady.
- Contributed to leadership decision-making by facilitating discovery sessions, promoting open dialogue and shared understanding.
- Mentored aspiring project managers, aiding their professional growth while strengthening team capabilities.
- Cultivated a supportive environment where team contributions were valued, significantly boosting morale and engagement.

Program Manager

June 2013 – February 2016

Innovatech Services

Seattle, WA

Managed large-scale program delivery initiatives, balancing competing priorities in the fast-paced P&C Insurance sector. Collaborated with diverse groups, driving project success while supporting continual operational improvements.

- Outlined acceptance criteria through partnerships with business sponsors, ensuring all projects aligned with client needs and expectations.
- Adopted integrated Agile practices, translating into enhanced turnaround times and increasing overall delivery effectiveness.
- Forged strong relationships with vendors, streamlining delivery processes and optimizing resource allocation.
- Monitored agile practices with tools like Jira, resulting in transparency and better risk prioritization within teams.
- Encouraged continuous process improvements, creating an atmosphere focused on quality and responsive evaluations.
- Guided multi-disciplinary collaborative efforts, fortifying unity in approaches to solve complex problems.
