SUMMARY

Dedicated Diagnostic Medical Sonographer with over two years' experience in performing OB/GYN and infertility ultrasounds. Skilled in utilizing advanced imaging technology, including doppler, to produce accurate diagnostic results while ensuring patient comfort and understanding. Committed to continuous education through ARDS certification maintenance and fostering safe clinical practices. Experience includes developing relationships with healthcare teams, managing workflows effectively, and elevating patient care methodologies, all aimed at achieving positive health outcomes. Eager to contribute skills to improve patient services and enhance collaborative efforts within a healthcare setting.

EDUCATION

Associate of Applied Science in Diagnostic Medical Sonography

Denver Community College 🎓 GPA: 3.5 📅 2026 📍 Denver, CO

Coursework: Diagnostic Imaging, Patient Care, Health Sciences, Clinical Procedures

TECHNICAL SKILLS

- **Imaging Equipment:** Transducers, Doppler, Ultrasound Machines
- **Patient Management Systems:** EMR Software, Scheduling Applications, Record Keeping Tools
- **Safety Protocols:** Sanitation Procedures, Compliance Guidelines, Safety Standards
- **Diagnostic Techniques:** OB/GYN Ultrasonography, Infertility Imaging, 3D Ultrasound
- **Clinical Assessments:** Observation Skills, Normal Anatomy Recognition, Pathology Assessment
- **Patient Education:** Procedure Explanation, Comfort Strategies, Communication Techniques
- **Collaboration Tools:** Team Meetings, Communication Platforms, Feedback Mechanisms
- **Continuing Education Courses:** Workshops, Seminars, Certification Renewal Programs
- **Administrative Tools:** Database Management, Allocation Tools, Administrative Planning
- **Quality Assurance Methods:** Workflow Monitoring, Performance Reviews, Continuous Improvement Metrics

EXPERIENCE

Diagnostic Medical Sonographer

University Project 📅 January 2025 - Present 📍 Denver, CO

Perform ultrasound procedures focusing on OB/GYN and infertility at a simulated practice environment. This role enhances practical knowledge and skills in electively using various doppler technologies and transducers for different ultrasound imaging protocols. Successfully collaborate with peers and educators fostering teamwork and patient-centered approaches.

- Conducted OB/GYN and infertility ultrasounds ensuring precise imaging results.
- Executed clinical assessments during embryo transfers and completed 3D ultrasound diagnostics seamlessly.
- Managed workflow and appointments efficiently to reduce patient wait times significantly.
- Interacted with physicians to clarify findings, bridging communication between patient expectations and medical insights.
- Maintained ultrasound equipment adherence to strict safety protocols ensuring a sterile environment.
- Engaged in ongoing education showcasing readiness for adopting new techniques in sonographic practices.

Diagnostic Imaging Intern

Clinical Internship 📅 June 2024 - December 2024 📍 Louisville, CO

STRENGTHS

- **Patient-Centric Communication**
Recognized for building rapport with patients, ensuring they feel informed and comfortable; peers frequently noted approachability.
- **Equipment Proficiency**
Accustomed to managing advanced imaging tools, gaining confidence from faculty feedback and improved diagnostics capabilities.
- **Time Management**
Consistently met tight procedural schedules; colleagues often sought support for efficient patient flow directive.
- **Team Collaboration**
Valued contributor to multi-disciplinary meetings enhancing protocol adherence, leading to smoother operations.
- **Continuous Learning**
Embraced continuous education opportunities; invested time in workshops aligning latest advancements with practice.

MY CAREER

- Diagnostic Medical Sonographer at University Project (1.5 Years)
- Diagnostic Imaging Intern at Clinical Internship (6 Months)

Gained hands-on experience in OB/GYN imaging as a vital part of a dynamic clinic. Worked under licensed sonographers to improve assessment skills and patient interaction routines. Participated actively in improving intern workflows, emphasizing teamwork while interacting with patients throughout their procedures.

- Assisted experienced sonographers in conducting detailed ultrasound examinations
- Documented observations pertaining to the anatomy seen during scanning to aid interpretation assistance.
- Supported patient tranquillity by clarifying purpose and methodology behind ultrasound procedures.
- Participated in team discussions addressing strategies for optimizing clinical efficiency and care delivery.
- Upholding cleanliness standards within imaging rooms reflecting compliance with infection controls.
- Handled administrative duties maintaining accuracy in patient scheduling and record management supporting efficiency.

LEADERSHIP & AWARDS

- Dean's List, Denver Community College, 2024
- Recipient of the Academic Excellence Award in Diagnostic Imaging, 2025

CERTIFICATIONS

- American Registered Diagnostic Medical Sonographer (ARDS) certification 2025
- ARDMS certification 2025

PROFESSIONAL AFFILIATIONS

- Member of the Student Sonographers Association, Denver Community College
- Volunteer at the Community Health Fair, providing free health screenings and educational materials
