Compassionate Dialysis Nurse with over two years of nursing experience, demonstrating specialized expertise in hemodialysis care. Proficient in educating patients about renal health and treatment protocols while ensuring compliance with clinical regulations. Leadership skills showcased through effective supervision of dialysis technicians and collaboration with healthcare teams to enhance patient outcomes. Unknown ability to manage high-pressure situations, adapting workflows to meet diverse patient needs. Strongly committed to providing exceptional nursing services that prioritize safety and efficacy, aiming to contribute greatly to organizational success at Nurture Health Services.

EXPERIENCE

Dialysis Nurse

Nurture Health Services  January 2025 - Present  Chicago, IL

Oversaw dialysis care within a high-volume facility, ensuring regulatory compliance and prioritizing patient safety. Delivered direct hemodialysis interventions and effectively tracked patient progress, promoting optimal health outcomes.

- Supervise a team of dialysis technicians, delivering oversight and guidance on patient care protocols.
- Perform comprehensive assessments, developing tailored care plans aligned with individual patient needs.
- Educate patients about their treatment regimens, fostering stronger self-management practices for kidney health.
- Monitor treatment responses, adapting plans based on real-time clinical evaluations and observations.
- Maintain meticulous electronic medical records, facilitating timely treatments and regulatory adherence.

Registered Nurse

Healthcare Solutions Inc.  June 2024 - December 2024  Chicago, IL

Provided holistic nursing care in diverse medical environments, emphasizing patient-centered strategies and quality improvement measures throughout the continuum of care.

- Collaborated with interdisciplinary teams to implement and fine-tune comprehensive patient care plans.
- Served as a resource during training initiatives for new hires, reinforcing compliance with best practices.
- Conducted regular evaluations and adjustments to treatment strategies, aligning interventions with patient progress.
- Participated actively in quality assurance projects aimed at enhancing overall healthcare delivery standards.
- Facilitated educational sessions focusing on chronic disease management among patients, enhancing engagement and understanding.

Nurse Intern

University of Chicago  May 2023 - May 2024  Chicago, IL

Gained hands-on nursing experience in a clinical setting under supervised mentorship, improving operational knowledge and team dynamics.

- Assisted nursing staff with patient care activities, fostering teamwork and honing interpersonal skills.
- Conducted preliminary assessments, aiding nurses in routine evaluations and recordkeeping.
- Supported patient education efforts by providing clear information about treatment plans and lifestyle modifications.
