SUMMARY

Dedicated Registered Dietitian Nutritionist with robust experience in providing Medical Nutrition Therapy and educational programs within acute care environments. Successfully conducted comprehensive nutritional assessments, developing personalized care plans that directly contribute to patient health improvements. Expertise encompasses application of evidence-based practices to elevate clinical effectiveness while actively mentoring junior staff and dietetic interns. Known for implementing quality improvement initiatives focused on advancing patient outcomes. Eager to bring this collaborative spirit and commitment to continuous advancement to a dynamic healthcare team.

EXPERIENCE

Clinical Dietitian

Health First Nutrition Services June 2024 - Present West Chester, PA

- Lead standardized treatment approaches as Clinical Dietitian, focusing on improving nutrition outcomes for patients in a 200+ bed acute care facility. Collaborate with multidisciplinary teams to ensure adherence to evidence-based protocols, enhancing quality of care delivery.
- Conduct comprehensive nutritional assessments for over 100 patients monthly, establishing individualized care strategies to drive optimal recovery outcomes.
 - Collaborate effectively with teams to implement evidence-driven nutrition interventions, leading to substantial increases in patient satisfaction scores.
 - Educate patients and families through interactive workshops on nutrition and healthy lifestyle changes, contributing to improved long-term dietary adherence.
 - Participate in QAPI initiatives, significantly enhancing clinical metrics and service delivery performance throughout the nutrition department.
 - Mentor dietetic interns by providing essential training on clinical methodologies, fostering a supportive and constructive educational environment.
 - Leverage health technology platforms for meticulous documentation of patient progress, ensuring compliance with institutional protocols.

Dietetic Intern

Nutritional Health Associates January 2024 - May 2024 Pottstown, PA

- Gained hands-on experience in clinical nutrition through an immersive internship involving patient assessments within diverse healthcare settings under supervision of RDNs. Contributed valuable insights into evidence-based dietary planning.
- Completed 120 hours of supervised practice focusing on acute care interventions, assisting registered dietitians with multifaceted nutritional assessment strategies.
 - Participated actively in team discussions aimed at developing comprehensive treatment plans based on patient's needs and evidence-based guidelines.
 - Led educational sessions promoting nutritional awareness among patients and staff, ultimately improving community health initiatives within the facility.
 - Contributed to ongoing quality improvement projects directed at enhancing operational functions while supporting patient-centered care practices.
 - Developed engaging patient education materials regarding dietary recommendations, thereby increasing available resources for staff utilization.
