STRENGTHS

- 💡 **Innovative Problem Solver**
Generated effective solutions by leveraging strong electrical engineering principles during technical troubleshooting experiences.
- 👥 **Collaborative Team Player**
Regularly collaborated with classmates, fostering teamwork and collective success when developing farm-focused technological solutions.
- 💬 **Strong Communicator**
Engaged with local farmers to understand specific technological needs while effectively presenting project updates and seeking feedback.
- 📄 **Detail-Oriented Organizer**
Maintained meticulous project documentation, ensuring clarity in communication and methodological integrity throughout academic presentations.
- 🔄 **Adaptable Learner**
Participated in diverse training opportunities, continually enhancing expertise in digital farming technologies amidst evolving industry landscapes.

SKILLS

- Electrical Engineering Principles
- Digital Farming Technologies
 - Data Analysis
- Project Management
- Team Collaboration
- Technical Documentation
 - Field Testing
- Customer Engagement
- Safety Compliance

SUMMARY

Enthusiastic Electrical Engineering student with hands-on experience in digital farming technologies through academic projects and internships. Demonstrated ability to collaborate with cross-functional teams to develop innovative solutions addressing real-world agricultural challenges. Strong foundation in electrical engineering principles focused on sustainability and efficiency. Eager to leverage technical skills and passion for agriculture in a challenging internship role, contributing valuable insights and technical support while engaging with stakeholders in the field of digital farming.

EDUCATION

Bachelor of Science in Electrical Engineering
University of Wisconsin-Madison 🎓 GPA: 3.7 📅 2026 📍 Madison, WI
Coursework: Circuits, Digital Systems, Signal Processing, Control Systems

TECHNICAL SKILLS

- **Engineering Software:** MATLAB, AutoCAD, Simulink
- **Scripting Languages:** Python, C++, Java
- **Digital Farming Tools:** Arduino, Raspberry Pi, IoT Sensors
- **Project Management Tools:** Asana, Trello, Microsoft Project
- **Documentation Tools:** Google Docs, Microsoft Word, LaTeX
- **Data Analysis Platforms:** Excel, MATLAB, Python
- **Presentation Software:** Microsoft PowerPoint, Prezi, Google Slides
- **Collaboration Tools:** Slack, Microsoft Teams, Zoom
- **Testing Frameworks:** JUnit, PyTest, Selenium
- **Hardware Description Languages:** VHDL, Verilog, SystemVerilog

EXPERIENCE

- Digital Farming Solutions Developer**
University Project 📅 January 2026 - May 2026 📍 Madison, WI
Led development of sustainable agricultural solutions that integrated digital farming technologies. Managed project interactions with local farmers, ensuring alignment with their needs and operational realities.
- Conducted research on digital farming technologies, leading to a precise farming prototype.
 - Collaborated with peers to design and test sensors for improved crop yield monitoring.
 - Drafted detailed documentation outlining methodologies to facilitate peer presentations.
 - Engaged farmers for feedback on tech needs, enhancing project relevance.
 - Troubleshoot sensor issues during testing, increasing reliability by 15%.
 - Presented findings at an agriculture technology fair, earning recognition from professionals.
- Electrical Engineering Research Assistant**
Academic Research 📅 September 2025 - December 2025 📍 Madison, WI
Supported IoT integration efforts within smart farming applications, analyzing data to refine technology designs for better performance.
- Contributed to experimental setups and data assessments on digital farming innovations.
 - Provided actionable insights from data analyses to inform future design directions.
 - Maintained thorough documentation to facilitate peer knowledge sharing and review.
 - Collaborated weekly with team members to address challenges and track progress.
 - Helped generate educational materials aimed at informing the agricultural sector.
 - Ensured compliance with safety standards throughout all research activities.
- Smart Agriculture Innovator**

MY CAREER

- Digital Farming Solutions
Developer at University Project
(4 Months)
- Electrical Engineering
Research Assistant at Academic
Research (3 Months)

Hackathon Project 📅 June 2025 📍 Remote

- Developed a prototype automated irrigation system using Arduino technology, contributing effectively to sustainable agricultural practices.
- Created a water conservation system based on real-time environmental data analysis.
 - Collaborated actively in brainstorming sessions focusing on urban agricultural improvements.
 - Designed user-friendly interfaces enabling farmers to control systems remotely.
 - Perfected prototype through rigorous testing, culminating successfully at the hackathon.
 - Awarded Best Innovation Award for impactful water-saving contributions.
 - Documented every project aspect for submission in a university innovation contest.

LEADERSHIP & AWARDS

- Dean’s List, University of Wisconsin-Madison, 2025
- Best Innovation Award, Agriculture Hackathon, 2025

CERTIFICATIONS

- Digital Farming Technology Certification 📅 2025
- IoT for Agriculture 📅 2025

PROFESSIONAL AFFILIATIONS

- Member, University of Wisconsin Engineering Society
- Volunteer, Local Community Garden Project
