SUMMARY

Detail-oriented eCommerce Data Analyst dedicated to optimizing digital commerce platforms. Over four years of experience driving significant improvements in platform performance and user satisfaction within the industrial sector. Specialized in data management, with proven expertise in tools like OroCommerce, Salsify, and Epicor Prophet 21. Focused on continuous improvement and collaborative efforts across teams, defining KPIs related to site performance, digital order volume, and conversion rates. Equipped with a strong background in developing training materials that ease platform adoption and foster efficiency.

EXPERIENCE

eCommerce Platform Analyst

NextGen Industrial Solutions 📅 June 2021 - Present 📍 Chicago, IL

Lead daily operations of our eCommerce platform in Chicago. Enhance user experiences and implement continuous improvements for efficiency.

- Spearhead operations for the integrated eCommerce platform, ensuring high-quality customer interaction.
- Define metrics that reflect platform health, generating actionable reports for internal stakeholders.
- Manage testing phases and validate enhancements aligning with user needs, championing seamless integration.
- Collaborate cross-functionally, addressing any operational challenges with internal teams and vendors.

Data Analyst

TechForward Distribution 📅 January 2019 - May 2021 📍 Chicago, IL

Analyzed data sets to enforce precise standards for product information accuracy, bolstering digital asset management capabilities.

- Established stringent data standards for product attributes, leading to tangible increases in reporting accuracy.
- Worked with suppliers to maintain data integrity, enriching documentation completeness and clarity.
- Conducted A/B tests to fine-tune user interfaces, contributing significantly to improved conversion rates.
- Participated in usability studies, streaming feedback sessions that led to iterative design decisions.

Research Intern

Civic Tech Innovations 📅 May 2017 - August 2018 📍 Remote

Focused on analyzing community engagement data, providing insights for reports aimed at improving local eGovernance platforms.

- Contributed to research projects assessing user-friendly interfaces for eGovernment services.
- Implemented analytical methodologies for evaluating workflow efficiencies within public digital access systems.
- Drafted periodic reports summarizing key findings and recommendations to stakeholders.
- Collaborated with cross-disciplinary teams to enhance project outcomes and deliverables utilizing data-driven approaches.

PROJECTS

E-Commerce Optimization Project 📅 January 2023

Led a comprehensive review to optimize e-commerce functionalities on an existing platform, identifying key areas for enhancement based on customer feedback and industry best practices.

STRENGTHS

Analytical Skills

Transformed vast datasets into compelling insights, guiding strategic decision-making, ultimately enhancing team direction and output.

User-Centric Design

Prioritized user experience in all projects, resulting in interactive interfaces favored by end-users and substantial user engagement.

Collaboration

Built strong inter-departmental partnerships, finding solutions to issues swiftly while uniting teams around shared objectives.

Project Management

Steered multiple concurrent initiatives effectively; ensured on-time delivery through focus on tasks and timelines recognized by leadership.

Presentation Skills

Delivered persuasive presentations, simplifying complex analyses, positively influencing discussions among diverse stakeholders.
