Hiring Manager
Innovative Energy Solutions
Chicago, IL
60616

Dear Hiring Manager,

I am excited to submit my application for the Electrical Engineer 1 role at Innovative Energy Solutions. With a recent graduation in Electrical Engineering from the University of Illinois, I am eager to combine our academic knowledge with real-world applications to deliver exceptional results.

My experience at Innovative Energy Solutions as an Electrical Engineer has me well-prepared for this opportunity, where I contributed to the design and analysis of electrical systems across various projects. I found joy collaborating with diverse teams to create functional designs that met evolving industry specifications; this adaptability has become my hallmark.

During my recent internship at the University Research Lab, I learned valuable skills. Working with low voltage distribution systems, I enhanced my technical drawing abilities and utilized MATLAB for extensive data analysis, which streamlined several workflows effectively. This hands-on experience honed my problem-solving mindset.

I am passionate about electrical system design. Creating intricate specifications and compliance checks ensures project success. Collaborating with vendors has taught me how to prepare detailed procurement specifications, which improved our project management significantly. My diligent attention to detail always yields rewarding results.

As I view the position's potential responsibilities, I feel excited about future contributions to your esteemed projects. I relish collaboration and deeply believe my proactive approach will blend seamlessly with Innovative Energy Solutions' esteemed practices. Engaging in continuous learning and professional development excites me.

Best regards

Jacob Pittman,

Jacob Pittman
