

Tomasz Freeman

Engineering Intern

JUNE 10, 2026

Hiring Manager
Tech Innovations LLC
Detroit, MI

Dear Hiring Manager,

I am thrilled to apply for the Engineering Intern position at Tech Innovations LLC, a company that blends innovation with passion, and where my skills can flourish among motivated minds committed to excellence. This opportunity resonates perfectly with my background and aspirations for meaningful contributions.

At Dynamic Solutions Inc., I collaborated effectively on software development projects, crafting user-friendly applications from scratch. I learned a lot. Sometimes, I struggled with algorithm complexities. Yet, persistence always paid off.

Technical expertise fuels my enthusiasm, particularly with tools like Matlab, Simulink, and C++. I find joy in utilizing these to develop simulations and optimize existing systems. Few experiences match the thrill of contributing directly to real-world applications.

I possess a drive to learn rapidly and adapt to diverse challenges, which I believe will align with your team's focus at Tech Innovations. Collaborating on customer-oriented projects excites me, as does the prospect of researching impactful applications of your products.

In seeking alignment with innovative minds at Tech Innovations, I envision not just a placement, but a vibrant exchange of ideas and creativity. Together, we can craft remarkable solutions that resonate.

Thank you for considering my application.

Sincerely,

Tomasz Freeman
