SUMMARY

Automotive parts professional excited to contribute skills and experience in a dynamic parts associate role. Capability for efficiently managing parts inventory, identifying necessary components, and maintaining storage areas ensures streamlined automotive service operations. Proven commitment to safety protocols while supporting continuous improvement initiatives fosters collaboration with technicians, enhancing service delivery. Eager to represent CarPro Solutions by ensuring timely availability of parts, optimizing workflows, and elevating customer satisfaction. Looking forward to leveraging training knowledge in ASE certification and operational procedures to foster team success.

EXPERIENCE

Parts Associate

AutoTech Innovations

June 2025 - Present

Burlington, NJ

Support automotive service operations by managing order fulfillment and parts logistics effectively. Collaborate with service teams to streamline inventory processes while ensuring safety standards are upheld. Promoting efficiency through effective training and organization enhances both team performance and customer satisfaction.

- Coordinate ordering and inventory management systems for ready accessibility.
- Implemented organizational strategies that improved parts retrieval efficiency by 30%.
- Partner with technicians to communicate and document parts requirements promptly.
- Ensure compliance with safety protocols, promoting a clean and organized workspace.
- Assist in onboarding new staff members on parts acquisition and management techniques.
- Regularly monitor stock levels to minimize service interruptions and maintain continuity.

Parts Assistant

Precision Auto Services

January 2024 - May 2025

Mount Laurel, NJ

Contributed as part of a dynamic team, assisting daily operational demands through effective parts processing and inventory maintenance. Capitalized on strengths in software tools and communication within fast-paced settings, essential for service excellence.

- Streamlined incoming parts processing for swift operations and improved customer interactions.
- Maintained organized storage solutions enabling quick access to frequently used components.
- Conducted inventory audits ensuring compliance with organizational standards and protocols.
- Utilized advanced parts management software to improve tracking and ordering workflows.
- Resolved customer inquiries regarding part specifications, fostering clarity and satisfaction.

- Participated actively in safety training initiatives, ensuring a culture of workplace safety.
