STRENGTHS

- 👥 **Collaboration**
Engaged with diverse teams to foster innovative design ideas, enhancing overall project outcomes.
- 💡 **Problem-Solving**
Identified and resolved design challenges swiftly, contributing to timely project completions and increased client trust.
- 🗣️ **Communication**
Articulated complex concepts clearly to non-technical stakeholders, ensuring thorough understanding and collaboration.
- 📋 **Project Management**
Led multiple initiatives from concept through delivery, receiving recognition for meeting tight deadlines without sacrificing quality.
- ✅ **Quality Assurance**
Implemented rigorous checks into documentation processes, achieving significant error reduction in project submissions.

SKILLS

Revit Modular Design
Regulatory Compliance
Project Documentation
Team Collaboration
Communication Skills

LANGUAGES

English Native
Spanish Proficient

SUMMARY

Driven civil engineer with over 5 years of experience specializing in land development and modular healthcare design. Proven track record of collaborating with multidisciplinary teams to enhance product performance and manufacturability. Expertise in Revit and a solid understanding of construction methods, paired with strong communication skills. Committed to improving design standards and supporting project delivery through innovative solutions.

EXPERIENCE

Design Engineer

Innovative Structures 📅 June 2021 - Present 📍 Baton Rouge, LA

- Oversees design and implementation of modular healthcare solutions, focusing on volumetric modules and wall panel systems. Drives collaboration among engineering teams to ensure compliance with regulatory requirements.
- Lead the design of modular healthcare products, focusing on volumetric modules and wall panel systems, resulting in improved project delivery times.
 - Collaborate with engineering teams to ensure that all designs meet regulatory standards and performance goals, enhancing user satisfaction.
 - Manage documentation for manufacturing, ensuring that all standards are met and maintained for quality assurance.
 - Conduct regular team meetings to discuss project updates and adjustments, fostering a collaborative work environment.
 - Develop and implement quality control tools, including detailed checklists to streamline documentation processes.
 - Serve as the primary contact for clients regarding design standards and modifications, improving client relationships and satisfaction.

Junior Civil Engineer

Green Building Solutions 📅 August 2019 - May 2021 📍 Baton Rouge, LA

- Contributed to healthcare-related projects under senior engineers' guidance, focusing on compliance and enhancing user experience. Assisted in procurement and cost estimation.
- Assisted in the design of healthcare-related construction projects, focusing on compliance with regulatory standards and user experience.
 - Supported senior engineers in creating Bills of Materials for cost estimation and material procurement, enhancing budget accuracy.
 - Engaged in team meetings to align project goals with long-term design objectives, ensuring effective communication across departments.
 - Conducted research on construction methods and materials, contributing to innovative project solutions.
 - Collaborated with design and fabrication teams to improve product manufacturability, reducing production delays.
 - Developed documentation for project coordination, ensuring clarity and compliance throughout the design process.

LEADERSHIP & AWARDS

- Certified Revit Professional (2022)
- Selected for employee recognition program for outstanding teamwork.

EDUCATION

Bachelor's Degree in Civil Engineering

Louisiana State University 🎓 GPA: 3.5 📅 2020 📍 Baton Rouge, LA

Coursework: structures, fluid mechanics, surveying, materials science

MY CAREER

- Design Engineer at Innovative Structures (5.2 Years)
- Junior Civil Engineer at Green Building Solutions (1.8 Years)

CERTIFICATIONS

- Certified Revit Professional 📅 2022
- OSHA Safety Certification 📅 2021

TECHNICAL SKILLS

- **Design Software:** Revit, AutoCAD, SketchUp
- **Modeling Techniques:** Volumetric Systems, Modular Components, Panel Design
- **Documentation Tools:** Microsoft Office, Google Drive, Procore
- **Construction Methods:** Regulatory Compliance, Quality Standards, Project Planning
- **Collaboration Platforms:** Slack, Microsoft Teams, Zoom
- **Presentation Tools:** PowerPoint, Prezi, Canva
- **Safety Standards:** OSHA Regulations, Site Safety Protocols, Risk Assessment
- **Estimating Tools:** Bills of Materials, Cost Calculators, Resource Planning
- **Quality Improvement:** Checklists, Feedback Sessions, Continuous Learning
- **Research Techniques:** Material Sourcing, Method Comparison, Problem Identification

PROFESSIONAL AFFILIATIONS

- Member of American Society of Civil Engineers
- Volunteer for Habitat for Humanity projects.
