EXPERIENCE

Data Analysis Intern
University Project

January 2026 – May 2026
Springfield, IL

Supported an academic project simulating an internal audit process focusing on data analysis. Collaborated effectively to analyze trends using tools like Excel and Power BI while documenting findings aligned with audit best practices. Engaged in developing comprehensive audit documentation including procedures and observations.

- Participated in team discussions to identify processes and control mechanisms enhancing understanding of risks involved.
- Conducted detailed data analysis leading to actionable insights that improved mock audit findings.
- Executed control tests in alignment with established guidelines, ensuring documented results were precise and auditable.
- Utilized AI applications for enhanced document drafting and review, contributing to streamlined operational efficiency.
- Maintained organized workpapers, requested and compiled audit evidence systematic for validation.
- Communicated progress and challenges, promoting transparency within the team framework.

Audit Procedures Capstone
University Project

September 2025 – December 2025
Springfield, IL

Designed an internal audit plan for a simulated entity as part of a capstone initiative. Focused on applying risk assessment techniques and compliance-based methodologies during various phases of the project, contributing significantly to understanding of audit frameworks.

- Orchestrated walkthroughs and control evaluations fostering coherence among student members regarding best practices in auditing.
- Implemented procedures elucidating data-driven methodologies for rigorous risk identification and assessments.
- Created exhaustive documents establishing controls and procedural observations fulfilling audit template criteria.
- Engaged in ongoing risk assessments, adjusting concepts based on evolving test circumstances and audits.
- Facilitated presentations of findings showcasing critical engagement capabilities in translating data into strategic recommendations.
- Empowered team interactions to navigate complexities within auditing trends.
