EXPERIENCE

- Accounting Intern**
University Project January 2026 – May 2026 Remote
Worked as an intern focusing on financial analysis for a simulated development project. Responsible for creating reports on income and expense forecasts. Collaborated closely with peers to assure precise transaction coding and adherence to budgeting principles.
Conducted financial analysis, preparing detailed reports on projected revenue and expenses involved in property management.
Engaged in bank account reconciliations, recognizing discrepancies and proposing effective resolutions.
Collaborated with team members to ensure consistent messaging and integrity in financial reporting processes.
Utilized Microsoft Excel for modeling various financial scenarios, improving analytical capability.
Developed engaging presentations communicating findings and insights to faculty effectively.
Participated actively in discussions with industry professionals, enhancing understanding of real-world accounting.
- Research Assistant**
Academic Research September 2025 – December 2025 Philadelphia, PA
Assisted in research concerning financial behaviors in retail management. Focused on the application of accounting practices among local businesses, enabling enhanced comprehension of operational effectiveness.
Supported data analysis to uncover trends in income and expense patterns linked to local retailers.
Contributed significantly to a comprehensive literature review addressing accounting standards and market impacts.

MY CAREER

- Accounting Intern at University Project (4 Months)
- Research Assistant at Academic Research (3 Months)
- Financial Analyst at Capstone Project (4 Months)

- Prepared presentations displaying findings for academic conferences, allowing exchange of ideas with faculty and students.
- Collaborated on survey design aimed at evaluating financial literacy within retail environments.
- Cultivated excellent attention to detail through diligent data entry and financial reporting efforts.
- Assisted in preparing studies that demonstrated the implications of fiscal practices on business health.

Financial Analyst

Capstone Project 📅 January 2025 – May 2025 📍 Philadelphia, PA

Led the analysis of financial statements from local real estate firms, producing insights on overall profitability, cash flow dynamics, and risk management strategies. Worked collaboratively with a group to achieve shared objectives.

- Developed insightful reports reflecting budget variances, advising on corrective measures where necessary.
- Gained valuable experience thoroughly analyzing profit motives linking back to market behavior.
- Drove improvements through engagement in peer reviews, lifting quality across group deliverables.
- Enhanced presentation skills by succinctly delivering project outcomes to faculty experts and fellow researchers.
- Facilitated teamwork by embracing connectivity amidst diverse group participants; reaching collective success, and establishing rapport.
- Created financial models aiding student committees in relation to major investment decisions.
