Hiring Manager
BlueSky Engineering
Leesburg, VA

Dear Hiring Manager,

I am thrilled to apply for the Entry Level Site/Civil Engineer position at BlueSky Engineering. This role resonates strongly with my aspirations and education. My recent experiences and collaborations have prepared me extensively.

In my academic journey, I worked diligently on a capstone project, unraveling storm water management challenges. Team dynamics thrived as I used CADD software intricately. My presentations helped peers grasp floodplain intricacies, stimulating engaging discussions.

Moreover, as an Engineering Assistant, I assisted in bridge hydraulics research. I obtained hands-on experience analyzing hydrologic data. Weekly presentations significantly boosted my communication skills, making me confident in expressing complex engineering concepts.

The collaborative environment at BlueSky excites me. I envision innovative projects that can foster friendships and professional growth within the company. Contributing alongside talented individuals to address intricate engineering tasks aligns with my goals.

Indeed, while engaging in these roles, I often faced hesitations. Yet, my determination drove me forward, transforming challenges into learning experiences. I am eager to channel this tenacity into contributing positively at BlueSky Engineering.

Thank you for considering my application.

Sincerely,

Kenneth Benitez
