EXPERIENCE

- Accounting Intern**
- University Project January 2026 – June 2026 Chicago, IL
- Role involved detailed analysis within a simulated accounting environment focusing on data management and reporting accuracy. Enhanced understanding of financial practices despite being an academic project, paving the path for practical applications in real-world scenarios.
- Conducted data entry for mock company invoices, ensuring accuracy and timeliness in processing.
 - Assisted in preparing financial statements, deepening proficiency in reporting processes.
 - Collaborated with peers on capstone projects, simulating accounts receivable management for 50 clients.
 - Developed skills in accounting software, generating reports that informed decisions.
 - Presented findings to faculty, receiving positive feedback for clarity and presentation quality.
- Finance Research Assistant**
- University Research Lab September 2025 – December 2025 Chicago, IL
- Contributed to research analyzing the impact of profit-sharing plans on motivation, enhancing analytical and communication skills. The role fostered collaboration with a diverse group, focusing on refining methodologies to deliver comprehensive insights.
- Supported literature reviews and data collection, leading to impactful insights on employee motivation.
 - Assisted in preparing presentations, boosting confidence in communicating complex concepts.
 - Engaged with a team to refine research methodologies, developing critical thinking skills.
 - Reviewed scholarly articles to ensure alignment with current industry practices.
- Budget Analyst**
- Course Project January 2025 – May 2025 Chicago, IL

LANGUAGES

MY CAREER

- Accounting Intern at University Project (5 Months)
- Finance Research Assistant at University Research Lab (3 Months)
- Budget Analyst at Course Project (4 Months)

Led a team project to craft a thorough budgeting plan, applying accounting principles with a focus on cash flow and financial analysis. This project enhanced coordination and planning skills essential for future roles in finance.

- Created a budget plan for a fictional business, effectively applying theoretical knowledge.
- Analyzed financial scenarios, presenting results and recommendations to classmates.
- Utilized Excel for financial modeling, which refined technical proficiencies and analytical thinking.
- Built competence in collecting and interpreting financial data, crucial for effective decision-making.
