# ALAN HENSLEY

## ENVIRONMENTAL SCIENTIST

(913) 555-0147 alan.hensley@example.com
linkedin.com/in/alan-hensley Overland Park, KS 66212

## STRENGTHS

**Analytical Skills**
Skilled in analyzing environmental data, converting complex information into meaningful insights for clients.

**Project Management**
Ability to juggle multiple projects simultaneously, consistently meeting deadlines without sacrificing quality.

**Client Communication**
Proficient at conveying complex findings in comprehensible terms, fostering trusting relationships with clients.

**Team Collaboration**
Valued team player known for creating positive synergies among colleagues, driving shared success on projects.

**Problem Solving**
Excellent at identifying issues, generating practical solutions that mitigate risks and enhance outcomes.

## SKILLS

Environmental Analysis
Data Collection
Project Management
Report Writing
Microsoft Office Suite
Client Communication
Team Collaboration
Sampling Techniques
Compliance Audits
Field Investigations
Regulatory Compliance

## SUMMARY

A dedicated environmental scientist with over 4 years of diverse experience in environmental consulting, analyzing hazardous materials, and ensuring compliance with regulations. Proven track record managing multiple projects that drive customer satisfaction while delivering on time and within budget. Demonstrated expertise in water, soil, and air quality analysis, along with strong analytical skills to interpret complex data. Passionate about sustainability and environmental solutions, fostering collaboration across teams to achieve goals. Eager to contribute to impactful projects, sharing knowledge and best practices to improve team performance.

## EXPERIENCE

### Environmental Scientist

Green Earth Consulting March 2023 - Present Olathe, KS

Provides comprehensive environmental consulting services, focusing on inspecting hazardous sites, collecting samples, and guiding project management efforts effectively. Played a crucial role in Superfund site investigations, ensuring regulatory compliance while optimizing procedures for better efficiency.

- Conducted in-depth soil and groundwater investigations meeting EPA standards, influencing remediation strategies effectively.
- Developed detailed Phase II Environmental Site Assessments and Quality Assurance Project Plans enhancing documentation practices.
- Collected and analyzed various environmental medium samples, delivering actionable reports for stakeholders.
- Collaborated with cross-functional teams to create project proposals and budgets, elevating client engagement levels.
- Mentored junior personnel on effective data collection methods and environmental analytical techniques, nurturing professional growth.
- Maintained up-to-date driving qualifications to ensure compliance during field operations.

### Environmental Technician

Eco Services LLC January 2021 - February 2023 Kansas City, MO

Focused on assisting senior project staff in environmental sampling and testing processes. Contributed significantly to the operational workflows during environmental assessments and managed necessary preparations for field work activities.

- Supported field sampling and testing for hazardous materials, directly contributing to safety and compliance successes.
- Interpreted sample data, prepared concise summary reports, and ensured clear communication of findings with all stakeholders.
- Entered and validated data into systems, significantly enhancing tracking and reporting accuracies.
- Engaged in active recalibrations of methodologies based on field observations to refine project output.
- Cultivated relationships through effective client communication and project coordination leading to enhanced trust and cooperation.
- Completed extensive HAZWOPER training enhancing knowledge applicability in real-world scenarios.

### Junior Environmental Analyst

Sustainable Solutions Co. June 2019 - December 2020 Shawnee, KS

Environmental Reports

Hazardous Material Analysis

Quality Assurance

Site Assessments

## MY CAREER

- Environmental Scientist at Green Earth Consulting (3.4 Years)
- Environmental Technician at Eco Services LLC (2.1 Years)
- Junior Environmental Analyst at Sustainable Solutions Co. (1.5 Years)

Assisted in executing environmental assessments promoting sustainable practices and regulations. Responsibilities included collecting and interpreting data alongside seasoned analysts, contributing to the production of comprehensive reports.

- Gathered and interpreted air, soil, and water quality data providing essential inputs for environmental evaluations.
- Played an integral role in preparing environmental impact assessments presenting findings professionally.
- Participated actively in meetings showcasing findings, reinforcing learning outcomes with real-world applications.
- Contributed to developing safety training materials guiding organizations on compliance requirements.
- Conducted literature reviews surveilling contemporary environmental regulations ensuring study relevancy.
- Facilitated workshops promoting environmental awareness inside adjoined firms.

## LEADERSHIP & AWARDS

- Recognized as Employee of the Month for outstanding contributions to multiple successful projects.
- Awarded Certificate of Achievement for excellence in Environmental Project Management initiatives.

## EDUCATION

**Bachelor's Degree in Environmental Science**

University of Kansas GPA: 3.8 2019 Lawrence, KS

***Coursework:*** *Environmental Systems, Ecology, Chemistry, Data Analysis*

## CERTIFICATIONS

- 40-Hour Hazardous Waste Operations 2021
- 8-Hour HAZWOPER Refresher Training 2022

## TECHNICAL SKILLS

- **Data Analysis Tools:** Excel, R, Python
- **Environmental Software:** AutoCAD, GIS, ArcMap
- **Project Management Tools:** Trello, Asana, Microsoft Project
- **Safety Regulations:** EPA Guidelines, OSHA Standards, HAZWOPER Requirements
- **Reporting Standards:** QAPPs, SAPs, Environmental Report Formats
- **Communication Platforms:** MS Teams, Zoom, Slack
- **Sampling Equipment:** Integrated Sampling Kits, Pumps, Geoprobe
- **Testing Methods:** Spectroscopy, Chromatography, Electrophoresis
- **Research Methodologies:** Field Studies, Case Studies, Longitudinal Research
- **Training Programs:** HAZWOPER Certification, Safety Workshops, Environmental Compliance Seminars

## PROFESSIONAL AFFILIATIONS

- Active member of the Environmental Sciences Society, collaborating with fellow professionals to promote best practices.
- Volunteer with local conservation groups, participating in community-driven environmental protection projects.
