SUMMARY

Results-driven Environmental Scientist skilled in executing compliance projects while ensuring adherence to federal and state regulations. Experienced in conducting environmental audits, preparing detailed reports, and providing project support essential for sustaining ecological balance. Collaborated closely with governmental agencies and diverse teams to deliver impactful environmental solutions that promote public health and safety. Natural team player capable of managing multiple priorities while remaining adaptable in high-pressure environments. Eager to leverage field experience and technical expertise to tackle pressing environmental challenges at Environmental Solutions Inc.

EXPERIENCE

Environmental Scientist

Green Earth Consulting 📅 June 2022 – Present 📍 Denver, CO

Leading a diverse array of environmental compliance initiatives focused on regulatory adherence and sustainability across multiple client sites. Successfully managed comprehensive environmental assessments, directly enhancing corporate compliance frameworks.

- Streamlined auditing processes, reducing time needed for compliance checks without compromising quality.
- Designed and implemented tailored Environmental Management Systems catering to client specifications and needs.
- Coordinated site visits which served as critical junctions for direct client engagement, leading to improved service delivery and satisfaction.
- Created training materials aimed at empowering clients and internal teams on the latest environmental regulations and compliance measures.
- Facilitated workshops and seminars, fostering knowledge sharing among colleagues and partners regarding compliance best practices.
- Actively participated in cross-functional team meetings, ensuring alignment on project goals and timelines for smoother execution.

Environmental Analyst

Eco Solutions Corp. 📅 March 2018 – May 2022 📍 Aurora, CO

Provided analytical support on various environmental compliance engagements, driving proactive strategies for mitigating risks associated with environmental impacts. Aided in developing high-quality documentation essential for operational transparency.

- Conducted thorough environmental impact assessments documenting compliance narratives supporting state mandates and regulatory requirements.
- Collaborated closely with stakeholders for effective data collection that informed decisions on project feasibility.
- Documented project status updates meticulously, ensuring all compliance-related actions were noted and addressed efficiently.
- Established strong relationships between clients and regulators, acting as liaison during reviews and inspections for better outcomes.
- Participated in analysis of field data collected, contributing substantially to research outcomes and strategic decision-making.
- Enhanced communication strategies within the organization, improving project flow and employee contribution.

Junior Environmental Technician

Sustainable Practices Inc. 📅 January 2016 – February 2018 📍 Boulder, CO

Supported senior environmental scientists by assisting in audits and evaluations while gaining hands-on experience and insights into business operations. Played a pivotal role in cultivating environmental responsibility through active involvement in several projects.

- Assisted in drafting technical reports that captured the essence of compliance activities performed for clients.
- Participated in regulatory research efforts contributing to the knowledge base regarding environmental standards.
- Engaged in sample collection and analysis critical to understanding current environmental conditions and necessary improvements.
- Actively contributed to team-organized field visits resulting in actionable insights during compliance reviews.
- Monitored trends and new developments in environmental policy aiding strategic planning efforts.
- Played a key role in daily operational tasks fostering teamwork while promoting efficiency.

LEADERSHIP & AWARDS

- Achieved Certified Environmental Professional (CEP) status in 2020. Recognized for commitment towards advancing professional competency.
- Received OSHA HAZWOPER Certification in 2021, underscoring dedication to workplace safety and environmental integrity.
