STRENGTHS

- 🔧 **Equipment readiness**
Pre use checks became a dependable habit, helping crews start work with safer, better prepared machines.
- ♥️ **Field safety**
Traffic, spotter, backing, and PPE practices guided daily choices around active equipment and moving vehicles.
- 🚚 **Material coordination**
Staging asphalt, aggregate, barricades, and tools kept crews supplied without obstructing traffic paths.
- 🏗️ **Steady manual work**
Long outdoor assignments called for persistence, and shoveling, cleanup, and debris removal stayed on track.
- 📝 **Accurate records**
Daily notes captured equipment use, site conditions, and completed work, giving crew leads useful follow through.

SKILLS

Pavement Maintenance

General Construction Dump Trucks

CDL Preparation

SUMMARY

Early career equipment operator with one year of full time experience supporting pavement maintenance, general construction, material movement, and outdoor work zone operations. Operates dump trucks, loaders, skid steers, rollers, and compaction equipment under crew lead direction. Completes pre use inspections, routine servicing, minor tool corrections, material staging, debris removal, site cleanup, and accurate daily records. Works safely around traffic, heavy machinery, dust, noise, vibration, fumes, changing weather, and active construction crews. Holds a valid non probationary **Colorado driver's license**, **OSHA 10 Hour Construction Safety** certification, and **Colorado Class B CDL** preparation training. Prepared to complete CDL requirements and **FMCSA Drug and Alcohol Clearinghouse** registration while contributing dependable field support and careful equipment operation.

EXPERIENCE

Equipment Operator Trainee

High Plains Paving Services 📅 September 2025 - September 2026 📍 Pueblo, CO

Supported pavement repair, **material movement**, equipment servicing, manual construction work, and work zone operations across municipal and commercial sites. Worked under crew lead direction while maintaining safe production, accurate records, and dependable site support.

- Supported pavement repairs using **skid steers**, loaders, rollers, and **compaction equipment** under crew lead direction.
- Moved aggregate, asphalt, barricades, and tools with **dump trucks** and **loaders** across active work sites.
- Completed pre use inspections covering fluids, tires, guards, controls, and visible equipment defects before service.
- Performed minor tool corrections within authorization limits and escalated mechanical concerns requiring shop attention.
- Handled shoveling, debris removal, edge preparation, compaction support, and cleanup during extended outdoor assignments.
- Recorded equipment use, materials moved, site conditions, and completed tasks while following work zone **safety practices**.

PROJECTS

Seasonal Roadway Support 📅 2026

Supported roadway maintenance readiness through equipment checks, material staging, cleanup, and safe field coordination around active traffic and changing weather.

LEADERSHIP & AWARDS

- Recognized by crew leadership for dependable equipment preparation and careful pre use inspection habits.
- Selected for additional field responsibility after consistently maintaining accurate daily work records.
- Completed OSHA 10 Hour Construction Safety training while building practical pavement operations experience.

EDUCATION

High School Diploma

Pueblo Central High School 🎓 GPA: 4.0 📅 2025 📍 Pueblo, CO

Coursework: *Construction safety, equipment operation, workplace safety, applied mathematics*
