STRENGTHS

- ♥ **Safety Focus**
Before each assignment, checks equipment and work conditions carefully, helping crews begin with fewer surprises.
- 🔧 **Equipment Care**
Routine checks and minor adjustments became part of every shift, keeping field equipment ready for work.
- 🗣️ **Crew Communication**
Clear status updates helped crews coordinate handoffs, especially during changing construction and emergency priorities.
- 🛠️ **Field Reliability**
Snow removal demanded steady follow through, and dependable support helped operations respond under pressure.
- 📄 **Documentation**
Accurate work records gave supervisors useful visibility into completed tasks, equipment concerns, and daily progress.

Work documentation	
Mechanical troubleshooting	
Traffic control	Crew coordination

SUMMARY

Equipment Operator with more than five years supporting road maintenance, construction activity, snow removal, emergency response, and safe field operations. Operates road maintenance equipment, vehicles, and **required tools** using **established procedures** and sound judgment. Completes inspections, routine maintenance, minor adjustments, documentation, and mechanical issue reporting before problems affect field work. Works closely with crews, communicates status clearly, and follows traffic controls, **safety practices**, **applicable standards**, and site requirements. Practical experience includes onsite physical work, changing schedules, equipment checks, repair support, and infrastructure service. Associate degree and professional certification support dependable performance in demanding operations. Brings a steady approach to safe execution, accurate records, equipment care, and crew coordination, helping operations stay organized, responsive, and ready for changing field conditions.

EXPERIENCE

Equipment Operator

Mountain Infrastructure Services 📅 May 2021 - Present 📍 Boulder, CO

Supports road maintenance, construction activity, snow removal, emergency response, and infrastructure operations. Operates field equipment, completes inspections, performs routine care, reports mechanical concerns, documents work, and coordinates status with crews. Maintains focus on safe procedures, traffic requirements, physical field demands, and reliable service during changing schedules.

- Operated **road maintenance** equipment during construction work, keeping assigned field activities moving safely.
- Inspected equipment before use, reporting **mechanical concerns** before they disrupted scheduled operations.
- Performed **routine maintenance** and **minor adjustments**, supporting reliable equipment performance during field assignments.
- Supported snow removal and **emergency operations**, responding to changing priorities and difficult conditions.
- Followed traffic controls, safety practices, equipment procedures, and applicable standards during onsite work.
- Documented **work activities** and communicated status with crews, supporting clear handoffs across operations.

PROJECTS

Winter Response Operations 📅 2024

Supported seasonal snow removal and emergency response work through equipment checks, crew coordination, status updates, and safe field execution.

Road Maintenance Support 📅 2023

Contributed to road maintenance activity through equipment operation, routine care, issue reporting, documentation, and coordinated construction support.

LEADERSHIP & AWARDS

- Recognized by field crews for dependable support during snow removal operations.
- Selected for consistent equipment care and accurate work activity documentation.
