SUMMARY

Motivated and eager professional ready to contribute to consulting initiatives in real estate and economic development. Over two years have been spent gathering insights through research, analysis, and project management for urban development projects. A collaborative mindset thrives in dynamic environments while tackling complex issues. Significant experience includes assisting in market feasibility studies and report preparation to support client objectives. Committed to learning and implementing best practices to drive impactful results. This role presents an exciting opportunity to engage as part of a knowledgeable team, providing critical support and innovative solutions to challenges.

EXPERIENCE

Consulting Analyst

January 2025 - Present

Urban Insights Group

Chicago, IL

This current role focuses on conducting market research and data analysis for various urban development projects. Work requires frequent collaboration with project managers to prepare comprehensive reports designed for clients. Additional responsibilities include crafting proposals and marketing strategies tailored specifically to client needs and engaging actively in team discussions that provide insights refining project outcomes.

- Conduct thorough market research impacting urban development projects for insights.
- Collaborate with project managers to prepare detailed reports and presentations.
- Contribute to developing strategic proposals and marketing initiatives focused on client satisfaction.
- Engage in team meetings offering insights that refine project deliverables.

Intern

June 2024 - December 2024

City Planning Associates

Chicago, IL

Served in an internship where support was provided to senior analysts during data collection and market feasibility studies. Drafting reports and proposals for potential urban developments played a key role. Hands-on project management experience heightened involvement in client interactions enriching the overall learning process.

- Assisted senior analysts with meticulous data collection for feasibility studies.
- Drafted insightful reports and proposals for examination by upper management.
- Gained practical project management skills while engaging in direct client interaction.
- Created presentation materials clarifying findings to enhance understanding.
