- Interactive Prototyping
- Responsive Design
- Design Systems User Research
- Visual Design User Flows
- Wireframing
- High-Fidelity Mockups
- Stakeholder Presentations
- Collaboration Tools Brand Identity
- User Testing
- Design Documentation
- Conversion Optimization

SUMMARY

Innovative Figma Designer with 4 years of experience in UX/UI design, specializing in SaaS applications and responsive web design. Proven ability to create visually compelling user interfaces while optimizing user experiences to drive business outcomes. Strong portfolio reflecting a variety of projects, including websites and learning management systems. Skilled at collaborating closely with cross-functional teams to deliver user-centered design solutions that align with strategic goals, maintain excellent visual standards, and facilitate iterative feedback processes for continuous improvement.

EXPERIENCE

Figma Designer

Creative Solutions 📅 March 2023 - Present 📍 Chicago, IL

Responsible for leading design efforts focused on delivering exceptional user experiences for web platforms and LMS products. Work closely with developers, product teams, and stakeholders to ensure designs are aligned with project objectives and goals.

- Spearheaded the creation of high-fidelity mockups for a Learning Management System, significantly enhancing user engagement.
- Developed responsive designs across multiple devices, ensuring an optimal experience for desktop, tablet, and mobile users.
- Established a scalable design system within Figma, resulting in improved design efficiency and consistency.
- Collaborated with product teams to accurately translate business requirements into intuitive user flows and wireframes.
- Conducted user testing sessions for gathering actionable feedback, iterating on designs to enhance usability and satisfaction.
- Created and upheld visual design standards, which elevated the brand's overall online presence.

UX/UI Designer

Digital Innovations 📅 January 2021 - February 2023 📍 Chicago, IL

Focused on designing comprehensive user experiences for various SaaS applications, contributing to performance improvements and innovative design solutions tailored to user feedback.

- Designed and optimized interface experiences for multiple SaaS applications, which led to noticeable increases in user retention.
- Produced interactive prototypes that streamlined the handoff process between design and development teams.
- Partnered with marketing entities to optimize landing pages, facilitating growth in conversion rates.
- Generated thorough documentation detailing design specifications that aligned cohesively with developers' requirements.
- Engaged in collaborative brainstorming sessions that shaped product strategy and enhanced user experience initiatives.
- Mentored junior designers, nurturing talents and promoting a culture of innovation within the team.

Junior UX Designer

TechWave Solutions 📅 June 2020 - December 2020 📍 Chicago, IL

Supported design teams by crafting responsive web application interfaces and prototypes. The role emphasized collaboration and fueled exploration of user-centric design methodologies.

- Assisted in developing responsive applications focusing on key principles of user-centered design.
- Created initial wireframes and prototypes that garnered vital feedback from cross-functional stakeholders.
- Performed competitive analysis, creating an informed foundation for future design iterations.
