EXPERIENCE

Pharmacy Intern

January 2026 - Present

University Project

Remote

Supporting pharmacy operations as part of an internship program aimed at enhancing practical skills in a retail pharmacy setting under guidance from licensed pharmacists. Responsibilities include ensuring patient safety through adherence to regulations, inventory management, and customer service workflows.

- Engaged in patient safety initiatives while adhering strictly to pharmacy regulations.
- Processed prescriptions efficiently by translating SIG codes and ensuring accurate labeling.
- Supported customer service efforts by addressing inquiries and sharing medication information.
- Collaborated effectively with licensed pharmacists to provide patient counseling on various medications.
- Participated actively in inventory management tasks, maintaining appropriate stock levels for pharmaceutical supplies.
- Contributed significantly to quality assurance measures that improved patient experience and safety.

Pharmacy Research Assistant

September 2025 - December 2025

Academic Research

Champaign, IL

Conducted impactful research initiatives exploring strategies for improving medication adherence within diverse patient demographics. Collaborated with peer researchers and contributed findings to broader community health discussions.

- Conducted research focused on medication adherence strategies tailored for varied patient cohorts.
- Analyzed data meticulously utilizing advanced statistical software to uncover trends influencing pharmacy practice.
- Assisted in preparing presentations for academic forums and local health fairs, increasing awareness about critical health topics.
- Developed educational resources aimed at enhancing patient comprehension related to medication protocols.
- Collaborated with a dedicated research team, bonding efforts that implemented novel patient care programs at the university clinic.
- Ensured adherence to ethical standards throughout the research lifecycle, maintaining integrity and diligence.

Designed a capstone project concentrated on optimizing inventory management approaches applied within community pharmacy contexts. Fostered healthy collaboration among peers to simulate practical pharmacy management scenarios.

- Developed an innovative capstone project focusing on superior inventory management tactics in community pharmacies.
- Evaluated diverse inventory systems' effectiveness using aggregated case studies and thorough statistical analysis.
- Composed a detailed report laying out findings and recommended actions for operational improvements.
- Presented insights to faculty, garnering accolades for clarity, analytical depth, and relevance to real-world applications.
- Simulated actual pharmacy management environments with fellow students, enriching experiential learning opportunities.
- Utilized various digital tools to produce engaging presentations and meticulously documented results.
