Meaden & Moore
Dublin, OH

Dear Hiring Manager,

I am excited to apply for the Forensic Accounting Intern position at Meaden & Moore. This opportunity matches my academic journey well and promises delightful challenges in accounting.

Throughout my studies, I have realized the thrill of using analytical skills to uncover financial narratives. My experiences in investigative projects have showcased not only my curiosity but also my affection for numbers.

During a recent university project, I analyzed financial statements for fictional businesses and identified anomalies. Working with my team, I made connections between data patterns and potential fraud indicators, unearthing insights from seemingly mundane figures.

I truly appreciate how your firm values community involvement and professional growth. Your commitment to collaboration reflects my personal aim to contribute positively while learning from experts.

I admire the array of supportive initiatives at Meaden & Moore, like wellness programs and team outings, which indicate a strong workplace culture focused on both productivity and camaraderie.

Thank you for considering my application.

Sincerely,

Nicolas Watkins
