## SUMMARY

Passionate Full-Stack Software Engineer with over two years in developing impactful solutions across diverse applications. Expertise in building dynamic front-end interfaces and resilient back-end systems utilizing technologies like JavaScript, TypeScript, and frameworks such as React and Next.js. A collaborative team player committed to enhancing user experiences through innovative problem-solving and cross-functional partnerships. Enjoy mentoring peers and staying ahead of industry trends, constantly seeking opportunities to automate processes and improve workflows. Excited to join a forward-thinking organization focused on transforming business efficiency through automation.

## EXPERIENCE

### Software Engineer

January 2025 - Present

TechVista Solutions

Seattle, WA

Develop enhanced web applications while optimizing performance and user experience. Contribute to the design of automated tools that streamline internal processes, ensure robust software delivery, and cultivate teamwork among departments.

- Created scalable web applications using React and Node.js for improved responsiveness.
- Collaborated closely with product managers to gather requirements and execute high-quality technical solutions.
- Implemented RESTful APIs to seamlessly integrate third-party services and improve data management flows.
- Enhanced debugging strategies leading to faster troubleshooting and resolution of complex system issues.

### Junior Software Developer

June 2024 - December 2024

Innovatech Labs

San Francisco, CA

Engaged actively in developing user-friendly web application interfaces. Fostered a culture of quality assurance through code reviews, focusing on improving internal processes and methodologies.

- Assisted in interface design for several web applications enhancing customer engagement.
- Contributed in code review sessions, promoting best practices leading to superior software quality.
- Collaborated with cloud services professionals leveraging CI/CD pipelines via GitHub Actions.
- Participated in brainstorming sessions offering creative solutions to project challenges.

## PROJECTS

### AI Automation Workflow Tool 📅 March 2026

Developed an AI-driven tool that automates data extraction and processing tasks. Designed features that facilitate real-time responses by integrating LLMs and leveraging next-generation prompt engineering techniques.

### Data Processing Middleware 📅 January 2026

Created a middleware solution that improves internal data flow and communication between applications. Enabled seamless integration of APIs and third-party services enhancing efficiency.

## PORTFOLIO

**Title:** Software Engineering Portfolio

**Link:** Remote

**Description:** Showcase of previous projects including web applications and automation workflows demonstrating technical expertise.

## LEADERSHIP & AWARDS

- Outstanding Contributor Award at TechVista Solutions for exceptional collaboration and results-oriented approach in software development.
- Innovation Recognition at Innovatech Labs for contributions towards implementing effective coding practices.

## EDUCATION

### Bachelor's Degree in Computer Science

2024

University of Oregon GPA: 3.8

Eugene, OR

**Coursework:** Data Structures, Algorithms, Web Development, Database Management

## CERTIFICATIONS

- AWS Certified Solutions Architect - Associate 📅 2025
- Certified JavaScript Developer 📅 2025

## TECHNICAL SKILLS

---

- **Programming Languages:** JavaScript, TypeScript, Python
- **Frameworks:** React, Next.js
- **Databases:** MongoDB, SQL
- **Cloud Services:** AWS
- **APIs:** RESTful APIs
- **Deployment Tools:** GitLab
- **Automation Frameworks:** No-Code Tools, LLMs
- **DevOps Practices:** CI/CD
- **Debugging Tools:** Various Debuggers
- **Version Control:** Git

## SKILLS

---

- JavaScript
- RESTful APIs
- GitLab
- Teamwork
- TypeScript
- MongoDB
- CI/CD
- Communication
- React
- SQL
- Debugging
- Problem-Solving
- Node.js
- AWS
- Automation
- Performance Optimization

## PROFESSIONAL AFFILIATIONS

---

- Member of the Association for Computing Machinery, participating in programming contests and technology workshops.
- Active participant in local hackathons aimed at fostering software development skills and collaboration.

## LANGUAGES

---

- English (Native)
- Spanish (Intermediate)

## ADDITIONAL INFORMATION

---

**Work Status** : Authorized to work in United States. No sponsorship required.
