

# Logan Wood

## Full-Stack AI Automation Engineer

📞 (503) 555-0123 ✉️ logan.wood@example.com

🌐 linkedin.com/in/loganwood 📍 1234 Elm Street, Portland, OR 97201

### STRENGTHS

- 💡 Problem Solving**  
Able to tackle complex software issues head-on, valued for turning challenges into streamlined solutions through innovative thinking.
- 👥 Collaboration**  
Recognized for building strong relationships with coworkers, often seen as a mediator during challenging projects that require cross-departmental cooperation.
- 🔄 Adaptability**  
Easily adjusts to changing priorities and picks up new technology rapidly, making me a vital asset in fast-paced work environments.
- 🔧 Technical Proficiency**  
Deep understanding of full-stack development, consistently recognized for translating business needs into technical implementations effectively.
- ★ Leadership**  
Encourages team involvement and places value in feedback; emerges as a natural go-to resource when teammates face tricky problems.

### SKILLS

JavaScript TypeScript React

Node.js RESTful APIs MongoDB

SQL AWS GitLab CI/CD

Debugging Automation

Teamwork Communication

Problem-Solving

Performance Optimization

### SUMMARY

Passionate Full-Stack Software Engineer with over two years in developing impactful solutions across diverse applications. Expertise in building dynamic front-end interfaces and resilient back-end systems utilizing technologies like JavaScript, TypeScript, and frameworks such as React and Next.js. A collaborative team player committed to enhancing user experiences through innovative problem-solving and cross-functional partnerships. Enjoy mentoring peers and staying ahead of industry trends, constantly seeking opportunities to automate processes and improve workflows. Excited to join a forward-thinking organization focused on transforming business efficiency through automation.

### EXPERIENCE

#### Software Engineer

TechVista Solutions 📅 January 2025 - Present 📍 Seattle, WA

Develop enhanced web applications while optimizing performance and user experience. Contribute to the design of automated tools that streamline internal processes, ensure robust software delivery, and cultivate teamwork among departments.

- Created scalable web applications using React and Node.js for improved responsiveness.
- Collaborated closely with product managers to gather requirements and execute high-quality technical solutions.
- Implemented RESTful APIs to seamlessly integrate third-party services and improve data management flows.
- Enhanced debugging strategies leading to faster troubleshooting and resolution of complex system issues.

#### Junior Software Developer

Innovatech Labs 📅 June 2024 - December 2024 📍 San Francisco, CA

Engaged actively in developing user-friendly web application interfaces. Fostered a culture of quality assurance through code reviews, focusing on improving internal processes and methodologies.

- Assisted in interface design for several web applications enhancing customer engagement.
- Contributed in code review sessions, promoting best practices leading to superior software quality.
- Collaborated with cloud services professionals leveraging CI/CD pipelines via GitHub Actions.
- Participated in brainstorming sessions offering creative solutions to project challenges.

### PROJECTS

#### AI Automation Workflow Tool 📅 March 2026

Developed an AI-driven tool that automates data extraction and processing tasks. Designed features that facilitate real-time responses by integrating LLMs and leveraging next-generation prompt engineering techniques.

#### Data Processing Middleware 📅 January 2026

Created a middleware solution that improves internal data flow and communication between applications. Enabled seamless integration of APIs and third-party services enhancing efficiency.

### PORTFOLIO

**Title:** Software Engineering Portfolio

**Link:** Remote

**Description:** Showcase of previous projects including web applications and automation workflows demonstrating technical expertise.

## LANGUAGES

English Native

Spanish Intermediate

## MY CAREER

● Software Engineer at TechVista Solutions (1.4 Years)

● Junior Software Developer at Innovatech Labs (6 Months)

## LEADERSHIP & AWARDS

- Outstanding Contributor Award at TechVista Solutions for exceptional collaboration and results-oriented approach in software development.
- Innovation Recognition at Innovatech Labs for contributions towards implementing effective coding practices.

## EDUCATION

### Bachelor's Degree in Computer Science

University of Oregon 🎓 GPA: 3.8 📅 2024 📍 Eugene, OR

*Coursework: Data Structures, Algorithms, Web Development, Database Management*

## CERTIFICATIONS

- AWS Certified Solutions Architect - Associate 📅 2025
- Certified JavaScript Developer 📅 2025

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python
- **Frameworks:** React, Next.js
- **Databases:** MongoDB, SQL
- **Cloud Services:** AWS
- **APIs:** RESTful APIs
- **Deployment Tools:** GitLab
- **Automation Frameworks:** No-Code Tools, LLMs
- **DevOps Practices:** CI/CD
- **Debugging Tools:** Various Debuggers
- **Version Control:** Git

## PROFESSIONAL AFFILIATIONS

- Member of the Association for Computing Machinery, participating in programming contests and technology workshops.
- Active participant in local hackathons aimed at fostering software development skills and collaboration.

## ADDITIONAL INFORMATION

**Work Status** : Authorized to work in United States. No sponsorship required.
