STRENGTHS

- 💡 **Problem Solving**
Able to tackle complex software issues head-on, valued for turning challenges into streamlined solutions through innovative thinking.
- 👥 **Collaboration**
Recognized for building strong relationships with coworkers, often seen as a mediator during challenging projects that require cross-departmental cooperation.
- 🔄 **Adaptability**
Easily adjusts to changing priorities and picks up new technology rapidly, making me a vital asset in fast-paced work environments.
- 🔗 **Technical Proficiency**
Deep understanding of full-stack development, consistently recognized for translating business needs into technical implementations effectively.
- ★ **Leadership**
Encourages team involvement and places value in feedback; emerges as a natural go-to resource when teammates face tricky problems.

SUMMARY

Passionate Full-Stack Software Engineer with over two years in developing impactful solutions across diverse applications. Expertise in building dynamic front-end interfaces and resilient back-end systems utilizing technologies like JavaScript, TypeScript, and frameworks such as React and Next.js. A collaborative team player committed to enhancing user experiences through innovative problem-solving and cross-functional partnerships. Enjoy mentoring peers and staying ahead of industry trends, constantly seeking opportunities to automate processes and improve workflows. Excited to join a forward-thinking organization focused on transforming business efficiency through automation.

EXPERIENCE

Software Engineer

TechVista Solutions 📅 January 2025 - Present 📍 Seattle, WA

Develop enhanced web applications while optimizing performance and user experience. Contribute to the design of automated tools that streamline internal processes, ensure robust software delivery, and cultivate teamwork among departments.

- Created scalable web applications using React and Node.js for improved responsiveness.
- Collaborated closely with product managers to gather requirements and execute high-quality technical solutions.
- Implemented RESTful APIs to seamlessly integrate third-party services and improve data management flows.
- Enhanced debugging strategies leading to faster troubleshooting and resolution of complex system issues.

Junior Software Developer

Innovatech Labs 📅 June 2024 - December 2024 📍 San Francisco, CA

Engaged actively in developing user-friendly web application interfaces. Fostered a culture of quality assurance through code reviews, focusing on improving internal processes and methodologies.

- Assisted in interface design for several web applications enhancing customer engagement.
- Contributed in code review sessions, promoting best practices leading to superior software quality.
- Collaborated with cloud services professionals leveraging CI/CD pipelines via GitHub Actions.
- Participated in brainstorming sessions offering creative solutions to project challenges.

PROJECTS

AI Automation Workflow Tool 📅 March 2026

Developed an AI-driven tool that automates data extraction and processing tasks. Designed features that facilitate real-time responses by integrating LLMs and leveraging next-generation prompt engineering techniques.

Data Processing Middleware 📅 January 2026

Created a middleware solution that improves internal data flow and communication between applications. Enabled seamless integration of APIs and third-party services enhancing efficiency.

PORTFOLIO

Title: Software Engineering Portfolio

Link: Remote

Description: Showcase of previous projects including web applications and automation workflows demonstrating technical expertise.

MY CAREER

- Software Engineer at TechVista Solutions (1.4 Years)
- Junior Software Developer at Innovatech Labs (6 Months)

LEADERSHIP & AWARDS

- Outstanding Contributor Award at TechVista Solutions for exceptional collaboration and results-oriented approach in software development.
- Innovation Recognition at Innovatech Labs for contributions towards implementing effective coding practices.

EDUCATION

Bachelor's Degree in Computer Science

University of Oregon 🎓 GPA: 3.8 📅 2024 📍 Eugene, OR

Coursework: Data Structures, Algorithms, Web Development, Database Management

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate 📅 2025
- Certified JavaScript Developer 📅 2025

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python
- **Frameworks:** React, Next.js
- **Databases:** MongoDB, SQL
- **Cloud Services:** AWS
- **APIs:** RESTful APIs
- **Deployment Tools:** GitLab
- **Automation Frameworks:** No-Code Tools, LLMs
- **DevOps Practices:** CI/CD
- **Debugging Tools:** Various Debuggers
- **Version Control:** Git

PROFESSIONAL AFFILIATIONS

- Member of the Association for Computing Machinery, participating in programming contests and technology workshops.
- Active participant in local hackathons aimed at fostering software development skills and collaboration.

ADDITIONAL INFORMATION

Work Status : Authorized to work in United States. No sponsorship required.
