LaSalle Investments
Hiring Manager
Chicago, IL
Illinois

Dear Hiring Manager,

I am incredibly thrilled to express my interest in the Fund Accounting Manager role at LaSalle Investments. This opportunity resonates deeply with my trajectory, as I have accumulated over six years of enriched expertise within private equity and real estate finance, which I believe sets the stage for impactful contributions.

Navigating through the world of financial reporting, I secured a role where my diligence led to the crafting of accurate monthly, quarterly, and annual statements for various funds. My journey in Aspen Financial Group saw me enhancing collaborative efforts with third-party administrators, ensuring reporting accuracy, all while adhering strictly to IFRS and US GAAP standards. I remember a time when we tackled an intricate fund structure. The challenge pushed my team, and together we triumphed, enhancing our operational efficiency.

My leadership thrives on mentoring junior staff, fostering an environment ripe for development and innovative thinking. At Summit Capital Partners, my focus on accelerating reporting processes resulted in a 20% reduction in the time taken to deliver financial insights, a direct reflection of my commitment to operational excellence.

Though the fast-paced environment often felt overwhelming, approaching each task provided a burst of clarity, reminding me that challenges yield growth. I have cultivated skills in advanced Excel techniques, which act as a reliable compass in navigating complex financial landscapes.

As I aspire to join your dynamic finance team, I am eager to contribute my accounting acumen and strategic mindset. I find solace knowing my principles align with LaSalle's commitment to innovation, a focal point that promises continuous evolution and success.

Thanks

Vivian Pearson
